THE FINANCIAL SITUATION.

Rumors this week of an unfavorable character with reference to the Baltimore & Ohio Railroad have had some influence towards unsettling the general market. The facts and status of the company so far as we have been able to learn them will be found in our department of "Investment and Railroad Intelligence." Parties closely connected with the property, together with the officials, have denied the reports that a receivership was contemplated, and denied also that any such floating debt existed as the Street statements claimed. On the other hand the decline in the securities of the road which has been almost uninterrupted for weeks has excited suspicions of outside selling and of inside knowledge so adverse to the property that almost any rumor is readily believed. The truth is we are not permitted to doubt that the company is in straits and seeking to re-arrange affairs; but as soon as Mr. Little, the railroad accountant, has reported upon the state of its finances it is hoped and generally believed that the new management will be able to work a way out.

Other than this incident, all industrial developments have been of a recuperative character. It is not just now a sign of returning prosperity or of a contrary tendency that the stock market goes up or down. A boom in Wall Street does not seem to be in sight, nor is it a desirable feature. Good bonds are in demand, so also are stocks that are beyond suspicion, and they will continue to grow in demand; but the conditions existing do not warrant an excited or heedless speculation. The Government has done all it can do towards restoring confidence. It has fortified the reserve once more, and this time not only are the Treasury gold holdings larger than on any previous similar occasion, but that situation (instead of meeting influences adverse to the stability of the stock accumulated, as was the case a year ago,) meets trade and Treasury conditions which will tend to help preserve the Government stock. We showed two weeks ago, and on other occasions also have shown, how much more favorable the foreign trade movement is, and how much more promising the movement of future months is likely to be than it was in 1895. In other words, these conditions ensure of themselves much smaller gold exports this spring and summer than occurred a year ago. Then, again, the Treasury income is proving to be much fuller now. February receipts are large and likely to leave a small surplus over disbursements, notwithstanding the month is shorter and the interest payments have amounted to about \$2,100,000.

The "Railroad Gazette" of this city last week gave some figures which bring out in a striking way the influences in existence tending to keep trade large and active. By going over its files the "Gazette" finds that during the first few weeks of this year the car-building concerns have received orders for about 20,000 cars. It says that the actual figures must be larger than this since no doubt it has failed to hear of all the orders given. In the corresponding period of 1895 the orders noticed aggregated only about 8,000 cars. For the whole of 1895 the "Gazette's" records showed orders for 32,000 cars, while for 1894 the number was but 17,000. In 1893 the total was found to be 51,000. With orders for nearly half that number already given out, it is thought likely that the total to be built the present year will exceed 50,000. This would mean considerable business for many lines of railroad

supply manufacturing. The "Gazette" well observes that the prosperity of the car-building industry is quite an important fact in the business health of the nation. Few industries have so many lines of business dependent on their condition, it says, as car-building, and activity in it means prosperity to a great number of people. The lumber dealer, the manufacturers of couplers, brakes and brake beams, the foundries, and a host of others, are all active when the car builder is busy, and languish when he is idle. It is therefore very gratifying to find that the indications point to a large amount of car building during the current year.

It must also be regarded as encouraging that the outlook for the railroad industry, upon which not alone car-building and the trades allied with it but so many other industries also depend, is at this moment very satisfactory. We give to-day our compilation and review of the earnings of United States railroads for the late calendar year, and it will be seen from the figures there furnished that without having the returns for the full railroad mileage of the country we find an increase over the year 1894 in the gross receipts of the roads contributing reports in the large sum of 61½ million dollars. Of that amount 35½ million dollars was paid out in the shape of increased expenses. This reveals one of the factors in the recovery in business which distinguished 1895. It is important to note, too, that the improvement in earnings is being maintained during 1896. Returns for the current weeks of February are very good, and the statements of gross and net for January, which are now beginning to come in, show that even in that month when there were many things to retard business activity the roads did remarkably well. The Atchison Topeka & Santa Fe is one of the companies which have reported for said month, and this is the first information we have had concerning the course of earnings for that system the current year, the weekly reports having been discontinued. The statement shows \$249,722 gain in gross, \$284,351 gain in net. The St. Louis & San Francisco, which is still operated by receivers, for the same month reports \$39,637 increase in gross, \$13,338 increase in net. In a wholly different section we find the Milwaukee & St. Paul reporting \$435,244 gain in gross and \$148,254 gain in net, and the Northern Pacific \$146,110 gain in gross and \$167,412 gain in net. In the South the Southern Railway has added \$128,881 to its gross receipts and \$12,457 to its net, the Chesapeake & Ohio \$159,020 to its gross and \$21,484 to its net, and the Central of Georgia \$87,948 to its gross and \$91,884 to its net. Besides these we have had the January statements of several of the anthracite coal companies; the Central of New Jersey has enlarged its gross \$157,134 and its net \$103,934, and the Reading has enlarged its gross \$157,145 and its net \$120,973, and in addition records \$109,713 improvement in the net results of the Coal & Iron Company. The Wabash has done \$70,810 better than last year in its gross and \$46,157 better in its net. Several other companies have also furnished returns this week, a few showing losses, the most of them gains. In the following we compare the figures for four years for a number of roads.

In Chicago and in several other large cities propositions are before the local legislative bodies to compel the street railways to furnish every passenger with a seat and the matter is also being considered by some of the State legislatures. The problem which it is sought to solve by these efforts is undoubtedly a pressing one, and it is becoming more pressing every day. But unfortunately it cannot be settled in that way. There seems to be nothing fairer or more plausible than the suggestion that every passenger shall be given a seat, and it is not strange either that the proposition finds ready acceptance, since it is like stating an axiom to say that every passenger *ought* to have a seat. Theoretically the idea is an excellent one, but when we seek to apply it to the actual state of things we quickly discover that in practice it is unworkable, and that an attempt to carry it into effect would only tend to make an already trying situation infinitely worse. The matter involves the whole question of furnishing adequate transit facilities in the densely populated districts during the hours of heaviest traffic in the morning and evening when people are going to and from their work. There is no complaint of any lack of seats at other times; if there were the proposal would provide a remedy wholly free from objection. The trouble exists only during the busy hours, and the difficulty about applying the remedy then is simply and solely that during those hours the roads are already running all the cars that it is possible to put on without imperiling the safety of the passengers and interfering with the smooth working of the roads. We discuss the subject at length in our STREET RAILWAY SUPPLEMENT, sent to subscribers with this issue of our paper, in an article under the caption of "No Seat, No Fare" to which we would refer the reader. The same number of the Supplement also contains other editorial discussions and comments in which our readers may be interested.

The bond payments at the New York Sub-Treasury have been comparatively small this week, but the net gold in the Treasury has been largely increased through the taking up into the Treasury cash of gold deposited in the designated depository banks. By this means the net gold holdings were reported from Washington on Tuesday at \$123,523,378, an increase in one day of \$15,374,173. The amount reported yesterday (Friday) was \$123,984,515. We are informed that hereafter this item will only be increased by the actual payments of the amounts yet outstanding. What figure the total reserve will reach when all bids are settled is of course still an uncertain matter. It is easy to see that it will be large

unless the future withdrawals are very heavy. There was still unpaid yesterday morning \$12,912,150 of principal on account of the allotment of \$87,222,950 (principal) charged to the New York Sub-Treasury. That of course does not include the premium. We do not know the precise amount still outstanding at other points, but believe it to be between two and three millions. Altogether it would seem that the future proceeds of the sale cannot be less than \$16,000,000 (principal and premium), all of which is to be added to the present stock less the amount of the withdrawals. Payments and withdrawals and the net receipts at the New York Sub-Treasury thus far are subjoined. The withdrawals yesterday included \$500,000 taken for export to South America.

* Loss.

The important feature in the money market has been the lower rates for commercial paper. So long as 6 per cent was maintained the offerings were light and the business small. But the decline in rates to figures which make the paper net less than 6 per cent has led to a better supply; still there does not seem to be any pressure of names. The truth is, all departments of the money market are lower. Call money, representing bankers' balances, has this week loaned at the Stock Exchange at 3 and at 5 per cent; but the higher rate was paid for comparatively small amounts, and the average for the week has been about 3½ per cent. The minimum rate at banks and trust companies has been 4 per cent, with some loans at 4½ and at 5 per cent. The offerings of money for fixed periods has been more liberal this week and consequently rates, as already stated, are lower, but comparatively little business has been done. A loan has been placed for nine months at 3½ per cent on exceptionally good security, and money is offered at 4½ per cent for eight months on all dividend-paying stocks. In the regular way the quotations are 4 per cent for thirty to sixty days, 4½ per cent for ninety days, 4½@5 per cent for four to five and 5 per cent for six to seven months on good Stock Exchange collateral. For the best commercial paper the demand is good and some very choice endorsements and Eastern mill paper have been sold this week at 4½ per cent. Quotations for the classes of paper usually sold through brokers are 5@5½ per cent for sixty to ninety day endorsed bills receivable, 5½@6 per cent for four months' commission house and the same for prime four to six month's single names, while good paper having the same time to run is 6½@7 per cent.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 15-16 of 1 per cent. The open market rate at Paris is 1½ per cent and at Berlin and Frankfurt it is 2½ per cent. According to our special cable from London the Bank of England gained £318,438 bullion during the week and held at the close of the week £49,116,013. Our correspondent further advises us that the gain was due to an import of £169,900, wholly from Holland,

to receipts from the interior of Great Britain of £344,000 and to exports of £186,000 to South America, of which £106,000 were to the Argentine Republic.

The foreign exchange market has been steady to firm this week, and bankers generally report a scarcity of all kinds of bills, though some say that there has been an unusually large offering of cotton drafts for the season. The demand has been steady, resulting in a fair amount of business. Some bankers report a good inquiry from mercantile remitters, while others say that they have not noticed any special demand of this character. One house states that some of the German dry goods importers have sold drafts against credits abroad because their collections have not been prompt, and therefore they have drawn money for the payment of duties and for other purposes. The arbitrage business has not made much of an impression upon the market either way, but early in the week it was reported that a prominent house was drawing against a line of railroad bonds which had been placed abroad. On Monday the market opened dull and steady, and Lazard Freres reduced the short rate half a cent. Rates for actual business were entirely unchanged compared with the close of Friday of last week at 4 86½@4 86½ for sixty-day, 4 87½@4 87½ for sight and 4 87½@4 88 for cable transfers. On Tuesday the Bank of British North America reduced both long and short sterling half a cent, but there was no alteration in rates for actual business, though the tone was quoted dull and a shade easier. On Wednesday rates were firmer, in consequence of a good demand for remittance and a scarcity of bills, and Heidelberg, Ickelheimer & Co. advanced their rates half a cent for long and short, and rates for actual business were moved upward one-quarter of a cent to 4 86½@4 86½ for long, 4 87½@4 88 for short and 4 88@4 88½ for cable transfers. There was no change whatever on the following day and the market was steady and without new feature. Yesterday the long rate on actual business was marked up one-quarter of a cent to 4 86½@4 87, with the close dull and easier. The following shows the daily posted rates of exchange by leading houses.

The market closed dull on Friday at 4 87@4 87½ for sixty-day and 4 88½@4 89 for sight. Rates for actual business were 4 86½@4 87 for long, 4 87½@4 88 for short and 4 88@4 88½ for cable transfers. Prime commercial bills were 4 86½@4 86½ and documentary 4 85½@4 86. Muller, Schall & Co. yesterday took \$500,000 gold out of the Treasury for shipment to-day to Buenos Ayres. The premium on gold yesterday was quoted at 7-16 of one per cent for gold guaranteed not to have been taken from the Treasury, and at ½@5-16 of one per cent for gold not guaranteed as to its source. The premium for greenbacks was nominally 1-16@½ of one per cent.

The following statement gives the week's movements of money to and from the interior by the N. Y. banks.

Week Ending Feb. 23, 1896.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.	\$3,757,000	\$4,540,000	Loss. \$783,000
Gold.	411,000	652,000	Loss. 271,000
Total gold and legal tenders.	\$4,168,000	\$5,222,000	Loss. \$1,054,000

Result with Sub-Treasury operations and gold exports.

Week Ending Feb. 23, 1896.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$4,168,000	\$5,222,000	Loss. \$1,054,000
Sub-Treas. oper. & gold exports.	23,000,000	25,500,000	Loss. 2,500,000
Total gold and legal tenders.	\$27,168,000	\$30,722,000	Loss. 3,554,000

MINORITY BONDHOLDERS IN UNION PACIFIC.

The following from a subscriber in Germany relates to a matter concerning which we have received several inquiries, and it is for that reason that we give prominence to it.

FRANKFORT-ON-THAINE, February 8th, 1896.

The Editors of the Financial and Commercial Chronicle,
New York:

Dear Sirs—

I am a subscriber and reader of the CHRONICLE since nearly twenty years, and beg to call your attention to a question deserving your notice, and which should be treated in your columns. I mean the position of the Bondholders of the Union Pacific Main Line first Mortgage Kansas Pacific Eastern, Middle & Denver Div. 1st Mtge. redeemable 1895, 1896, 1899, who have not deposited under the Reorganization Plan. Some of these Bonds are already overdue; others will become due soon and before the plan can be declared operative. Surely it cannot be possible or even desirable for the Committee to exclude those holders who prefer the payment of their principal and interest when due, after having patiently waited for the latter since more than two years. These bonds have been purchased as prime investments (most of them at about the rate of four per cent) by the most cautious investors, principally on account of the Second Mortgage held by the U. S. Government.

These investors are not willing to exchange their Bonds for the new securities offered; nothing can induce them to do so for reasons which I need not explain to you. The new securities are much more speculative and require a quite different public. How can Americans expect European capitalists to go on investing in their Railroad Securities if bonds of this superior quality are not even safe?

C.

While we are not inclined to differ with much that our correspondent says it is obvious that he is laboring under a misapprehension. He seems to think that the reorganization scheme is adverse to the interests of the bondholders and that it is calculated to impair the value of the bonds. How can Americans expect European capitalists, he says, to go on investing in their railroad securities if bonds of this superior quality are not even safe.

So far from the contemplated reorganization acting to endanger the safety of the bonds, its tendency obviously must be in the opposite direction—and this irrespective entirely of the merits of the plan. Our correspondent is altogether right when he asserts that the various first mortgage bonds to which he alludes have in the past been in high favor, and that the lien

they hold seems to make them perfectly secure. He is also right in thinking that the bonds being good, the bondholders are entitled ultimately to the payment of principal and interest in full. But no matter how well secured the bonds may be, the fact is that, owing to the unfortunate condition into which the company has fallen, the bonds are in default, and the property is in the hands of receivers. Under these circumstances there is but one way in which the bondholders can secure their rights—that is by having recourse to the remedy provided in the mortgage for just such a contingency, namely to resort to foreclosure and sale of the property. This is precisely what is contemplated under the reorganization. It should be remembered, too, that to conduct foreclosure proceedings successfully, collective action on the part of the bondholders is essential, and as a preliminary to that end it was necessary to formulate a plan on which the bondholders might unite.

Thus the appearance of a Reorganization Committee and a definite reorganization plan must pave the way for attaining the very object which our correspondent seeks—the payment of the bonds, principal and interest, in accordance with the remedy provided in the mortgage deed. Though the position of the bonds is undoubtedly a strong one, the situation regarding them has been by no means satisfactory under the unfavorable events of the last few years. The interest is considerably in arrears. On the Union Pacific main line bonds a coupon was paid January 20 by order of the Court, but even after that payment a whole year's interest is still unpaid. In the case of some of the other bonds mentioned by our correspondent, the interest is in arrears for two years or over. Besides, as our correspondent points out, some of the earlier issues of the various mortgages have already fallen due, and in those cases the principal also remains unpaid. Thus the situation is that on account of the embarrassments of the company the bondholders find themselves unable to collect either principal or interest, though they hold a security of unquestioned merit.

It is hardly necessary to say that it is not to the advantage of the bondholders that this situation should continue, and yet obviously it might continue indefinitely except for action like that undertaken by the Reorganization Committee. Until this Committee appeared in the field, the bondholders were quite helpless notwithstanding the strength of their security. Committees of many leading issues were in existence, but they found themselves unable to do anything, because so much depends upon the adjustment of the debt to the United States, and Congress has failed to pass any laws providing for a basis of settlement. It will perhaps be recalled that a general reorganization committee, one of whose members was Mr. J. P. Morgan and which contained other influential names, finally abandoned its task in March 1895 (owing to the failure of Congress to pass a refunding measure) after having been in existence since November 1893. This left the bondholders in a worse predicament than before, since it seemed to delay indefinitely the prospect of reorganization, and rendered a new departure absolutely necessary. The present Reorganization Committee was the outgrowth of this need, and in October last they made public the plan under which they intend to carry on the work of reorganization. They have pushed things with great vigor and determination, and have succeeded in rallying the bondholders to their support. Their plan moreover must be regarded as

distinctively a first mortgage bondholders' plan, as it ignores all but the prior lien securities—about the only exception being the Kansas Pacific consols.

Under this action the situation of the bonds has been greatly improved. That this is the general view, too, is evident from the appreciation which occurred in the market value of the various issues after the appearance of the plan. All these issues sold at their highest points of the year the latter part of October, and all then commanded a price equivalent to par and interest, allowing for the interest in arrears, so that the minority bondholders might then by selling their bonds in the market have realized what they are now contending for. Prices since have again declined, but so have the prices of other railroad securities under the disturbances in values created by the uncertainty regarding the Treasury gold reserve and the Venezuelan incident. It is therefore evident that the bondholders have been advantaged, rather than the reverse, by the Committee's work.

As to the treatment of the minority bondholders, we do not see that any act of the Committee is likely to impair or prejudice their rights. We say "minority" bondholders because the Committee have announced that they hold a majority of each issue of bonds covered by the plan. The Committee think that their offer to the bondholders under the plan is a great deal better than giving holders par and interest; but that is a question which every bondholder must decide for himself; it is not part of our purpose to enter into a discussion of the matter here. If a bondholder does not care to accept the new securities to which he would be entitled under the plan, but elects to take cash instead for principal and interest on the bonds, no obstacle can or should be interposed to such a course. Even in that case, however, the plan operates to the bondholder's advantage, for he can only get the cash by forcing the property to sale at foreclosure, and the reorganization plan is intended to expedite and facilitate foreclosure.

We have no knowledge what terms the Committee will offer the minority bondholders who want their bonds paid off. The point has not yet been reached where a decision on this question is necessary. In view of the character of the bonds, we should think it a mistake to offer anything less than par and interest—a mistake, too, calculated to injure American securities in the eyes of European investors. However, it is well not to overlook the fact that the Committee are charged mainly with the duty of carrying out the wishes of the majority of the bondholders as expressed in the plan to which they have given their assent. The minority bondholders should see to it that the property at foreclosure sale brings what it is worth. There can be no doubt that many parties would be glad to secure the road for the amount of the prior liens. The minority bondholders could themselves bid on the property and thus insure its sale at full value, or perhaps better still they can ask the Court to fix the minimum price at which the property may be sold, high enough to insure to the bondholders the amount of their claims.

We should not be surprised if as the prospect of foreclosure becomes more certain the price of the bonds should improve, giving the holders a chance to sell them in the market for par and interest. Even now ruling quotations are in most cases not very far from the figure which would yield that amount. Of course all this is on the suppo-

sition that the plan will be carried through. It is always within the range of possibilities that the road may be bought in by the Government in protection of its second mortgage lien. In that event there would be no doubt of bondholders receiving payment in full. That is true since the Committee to protect the majority bondholders it represents would necessarily have to bid high enough to protect also the minority holders of the same issues; that is, they would have to cover by their bid the principal and interest of all those securities. Hence, from every standpoint the outlook for these bonds appears favorable.

GROWTH AND INVESTMENTS OF TRUST COMPANIES.

In our issue of August 17th 1895 we made an analysis of the investments of the trust companies of New York State, tracing some interesting changes which have been going on in recent years in the operations of this important body of financial institutions. Our comments then were based on the 1st of July statement of the condition of the companies, then just issued. We now have the figures for the 1st of January 1896, and it will be instructive to extend the comparisons down to that date.

One feature disclosed which attracts attention because it is somewhat unusual is a loss during the six months in the aggregate of resources and the aggregate of deposits. We say this is unusual since the record of the trust companies has been one of steady and very large expansion in recent periods, their business growing in magnitude and importance from year to year. However, it has happened before that the January aggregates have been a little smaller than those for the previous July, and in this case the decrease is really unimportant considering the extent of the increase in the first six months of 1895. Doubtless the falling off indicates nothing more than that some of the depositors found use for their money to better advantage than by leaving it with the trust companies at the low rate paid by those institutions. The resources stood at \$395,552,991 July 1 1895, and are \$392,630,046 January 1 1896, so that the loss has been not quite three million dollars. In the deposits the decrease has been a little larger, the amount July 1 having been \$313,422,222, and January 1 \$307,351,893, a loss of about six million dollars.

In both cases the addition during the first six months had been exceptionally large—nearly 28 million dollars in the deposits and over 30 million dollars in the resources. It may be noted that while the trust companies saw their deposits diminish six million dollars during the six months, the deposits of our New York Clearing House banks in the same interval (or rather between June 29 and December 28) were drawn down over 69 million dollars. If we take the 1st of January figures of the trust companies for a series of years we shall find striking and uninterrupted growth. Here is a comparison of the resources.

AGGREGATE RESOURCES OF THE TRUST COMPANIES OF NEW YORK STATE.			
Jan. 1, 1896.....	\$392,630,046	Jan. 1, 1893.....	\$335,707,750
Jan. 1, 1895.....	365,419,729	Jan. 1, 1892.....	300,768,575
Jan. 1, 1894.....	347,466,011	Jan. 1, 1891.....	290,685,769

Thus during the last five years the operations of these institutions have been enlarged 112 million dollars, or 40 per cent, the total having risen from \$280 million dollars to \$392 million dollars. In other words, five years ago the resources of the trust companies

were less than 300 million dollars; now they are nearly 400 million dollars. The deposits naturally show the same record of growth and expansion, as may be seen by the following.

AGGREGATE DEPOSITS OF THE NEW YORK TRUST COMPANIES.			
Jan. 1, 1896.....	\$307,351,893	Jan. 1, 1893.....	\$264,295,048
Jan. 1, 1895.....	285,741,794	Jan. 1, 1892.....	234,466,697
Jan. 1, 1894.....	266,092,955	Jan. 1, 1891.....	211,320,275

Here the increase in the five years has been over 96 million dollars. Of this increase 21½ million dollars occurred in the late year. During the same period of twelve months the deposit line of the New York Clearing House banks was contracted no less than 48 million dollars.

In our previous article we referred to some interesting changes in the matter of the investments of the companies. One of the changes related to the diminution in the amount of money loaned on stock and bond collateral, which has been the favorite form of investment with the companies. A few years ago it was possible to obtain quite satisfactory rates of interest for loans of that description on call or on time, and as money put out in such loans remains within easy reach for use in emergencies, the companies invested much the larger part of their resources in that way. But after the panic of 1893 the situation changed. Owing to the absence of speculation on the Stock Exchange the demand for loans was greatly diminished, and at the same time there was an immense plethora of idle funds. The two together reduced interest rates to unprofitable figures, money on call at times being practically unobtainable and this compelled the companies to turn part of the money into other channels. It appears that in the late year it again proved advantageous to increase the loans on collateral, for the companies report over twenty millions more invested in that way on January 1 1896 than on January 1 1895. The following table shows the steady rise in the amount until January 1 1893, its subsequent decline, and the movement upward again during the last twelve months.

LOANED ON COLLATERAL BY TRUST COMPANIES.			
Jan. 1, 1896.....	\$169,161,348	Jan. 1, 1893.....	\$196,321,422
Jan. 1, 1895.....	148,953,820	Jan. 1, 1892.....	173,552,829
Jan. 1, 1894.....	147,794,024	Jan. 1, 1891.....	166,685,753

When the companies found themselves obliged to turn their investments in loans into other forms, they took to buying quite largely of Government bonds and municipal securities, and as a consequence enlarged very materially their so-called stock investments, which are composed mainly of this kind of securities. In the late year there was a further addition to the total, but much smaller in amount than in the years immediately preceding. Subjoined is the comparison for this item. It will be observed that between January 1 1894 and January 1 1895 the amount jumped from \$65,998,230 to \$97,555,798, and that now it stands at \$104,512,839.

STOCK INVESTMENTS OF TRUST COMPANIES.			
Jan. 1, 1896.....	\$104,512,839	Jan. 1, 1893.....	\$57,185,649
Jan. 1, 1895.....	97,555,798	Jan. 1, 1892.....	51,182,239
Jan. 1, 1894.....	65,998,230	Jan. 1, 1891.....	47,130,478

Another significant fact which the latest statement makes apparent is that the companies are finding it possible to reduce the amount of their uninvested funds, or rather the amount of cash on hand and on deposit with the banks. After the panic of 1893 there was a very great increase in this item, it rising from 35 millions January 1 1893 to 74½ millions January 1 1894. During 1894 the sum was diminished to 61 millions, and now we find it down to less than 51 millions. The amount held by the companies in their own vaults is only \$10,666,746.

CASH ON HAND AND ON DEPOSIT.

Jan. 1, 1896.....	\$50,404,137	Jan. 1, 1893.....	\$35,033,014
Jan. 1, 1895.....	61,206,703	Jan. 1, 1892.....	33,932,847
Jan. 1, 1894.....	74,365,761	Jan. 1, 1891.....	26,564,978

We may refer to the changes in one other item, namely the loans on personal security, embracing mainly the purchase of commercial paper or bills receivable. The item is not a large one, but it attracts attention because three principal companies furnish the bulk of it, these evidently making a special feature of it, and because there has been a marked tendency towards expansion in the item. On January 1 1895 the aggregate of such loans stood at \$22,791,215; on July 1 1895 at \$32,750,541; while now (January 1 1896) it is \$29,369,703. The decrease during the last six months has been chiefly in the loans by the New York Life Insurance & Trust Company, which has diminished its amount from \$9,307,110 to \$6,112,116; the Farmers' Loan & Trust reports \$5,850,000 now against \$4,560,000 last July, and the United States Trust \$11,372,309 against \$11,669,563. The three companies together, it will be observed, contribute over 23½ millions of the \$29,369,703 reported by all the trust companies of the State.

LOANS ON PERSONAL SECURITY BY TRUST COMPANIES.

Jan. 1, 1896.....	\$29,369,703	Jan. 1, 1893.....	\$19,699,925
Jan. 1, 1895.....	22,791,215	Jan. 1, 1892.....	17,210,145
Jan. 1, 1894.....	22,636,937	Jan. 1, 1891.....	19,753,643

The trust companies are very profitable concerns and net handsome returns even in dull times. During the year the Atlantic Trust Company of this city increased its capital from \$500,000 to \$1,000,000, and the Manufacturers' Trust Company of Brooklyn, with a capital of \$500,000, began doing business, while the United States Transfer & Exchange Association of this city, with \$200,000 capital, went into liquidation. The net increase in capital for the year is \$800,000, making the total January 1 1896 \$29,600,000, against \$28,800,000 January 1, 1895. The sum paid out in dividends in 1895 was \$3,845,500, equal to about 13 per cent for the present amount of stock. In 1894 the dividends declared reached \$3,597,000 and in 1893 \$3,442,375; at the same time the companies are steadily adding to their surplus fund, as will appear by the following.

SURPLUS FUND OF TRUST COMPANIES.

Jan. 1, 1896.....	\$10,962,543	Jan. 1, 1893.....	\$33,764,529
Jan. 1, 1895.....	39,432,622	Jan. 1, 1892.....	31,380,377
Jan. 1, 1894.....	38,312,202	Jan. 1, 1891.....	25,801,305

The increase in five years has been 15 million dollars, or almost 60 per cent. In the interval, however, a number of new companies have been added, who have started business with large surplus funds in order to attract deposits.

A NEW PHASE OF THE EGYPTIAN QUESTION.

The novelty in foreign affairs during the past week has been the prominence given to the continued occupation of Egypt by the English. The question is by no means new; but it has assumed rather a new shape. The most striking feature of what may be called the revival of the question is the position assumed by or granted to the Sultan. It is natural enough that he should take an interest in the ultimate fate of one of the grandest provinces—if not the grandest province—of the one mighty empire of Islam. But he has not hitherto, since the fall of Ismail Pasha, and since England assumed control of the country, made himself conspicuous by interference. For this and other reasons his interference at the present time is somewhat suspicious and suggests outside influence.

What it is that the Sultan wants is not made sufficiently plain to justify us in entering upon a full discussion of his demands in their more minute details. It would appear, however, from what has reached us through brief telegraphic announcements that he has made overtures to the British Government proposing that the latter, on certain guaranteed conditions, bring to a close its occupation of Egypt. The security of communication between India and England via the Suez Canal is named as one of the conditions. A serious aspect is given to the situation by the announcement that Russia, Germany and France are prepared to encourage the Porte in the course he has taken. Austria, on the other hand—and it is to be said to her credit—when approached met the application with a sharp reply in the negative. From the same source we learn that M. Nelidoff, the Russian ambassador at Constantinople, is having frequent audiences with the Sultan, and the inference is that the business is the evacuation of Egypt.

It is quite possible that all this fuss and excitement may be the result of some over-lively imaginations, and that the inferences are not justified by facts. It is not easy, however, to get rid of the idea that there is some foundation for all this talk, and for those numerous varied, though vague and uncertain, rumors. Very probably when all is known, or at least when more is known, things will wear quite a different aspect; but there is a strong presumption that we shall find that this revival of the question of evacuation is not without a substratum of truth. If the reports are reliable it is impossible not to be struck with the peculiar attitudes in which Russia and the Porte are alike allowing themselves to be presented. We have already admitted that the Sultan is not without reason interested in the present and future government of Egypt. But the time for interference, it must be admitted, is peculiar.

The entire civilized world has been knocking loudly at his gates and calling upon him to put forth his strength and make an end of a wholesale butchery which has had no parallel since the Dark Ages. With these calls ringing in his ears and with little done to restrain his bloodthirsty Turks from their horrible work among the poor and helpless Armenians, he turns aside to the consideration of England's occupation of Egypt. It is certainly a most peculiar attitude which the Sultan has assumed in the circumstances. Unless we greatly mistake, when this latest chapter of European history comes to be written, it will be one of the blackest in the records of time. Some one of the Powers was responsible for the recent inaction and for the final abandonment of the Armenians to their fate. Which was it? It was not the Sultan. He was helpless then. He is a tool now.

Very likely the present attitude of Russia is not correctly stated. Hitherto she has not made herself conspicuous in connection with Egypt or the Suez Canal. The English occupation has not particularly troubled her. Nor is there any visible reason why it should. Her interests are not there; nor are they in any serious way affected by the occupation. Within the last few weeks there have been rumors of changes which may in a certain way affect her relations to Egypt. But these rumors have not in any way been confirmed. As yet Russia has no need of the Suez Canal; and certainly she has no need of Egyptian territory. It was only the other day that one of the leading members of the British Cabinet

on a great public occasion spoke in the most kindly terms of Russia, and went so far as to suggest important concessions to that Power, especially in the Far East. The natural inference was that the relations of Russia and England were assuming a more friendly character, and that the greatest cause of discord among what were known as the Great Powers was about to be removed. Has Russia decided to be mischief-maker again? Has she resolved to use her influence to get England out of Egypt before she makes a vigorous effort to force her way through the Dardanelles? We doubt it.

Why should this present government in Egypt be brought to an end? Not because England has not done her duty. Not because she has failed in her efforts to carry out remedial legislation, or to institute reforms which have increased the value of property and ameliorated the condition of the people. In every way the British control of Egypt has been a success. It has not only improved the condition of the country and the people, it has honestly met the claims of creditors and defied the criticism of all the guaranteeing Powers. As Henry M. Stanley says in a letter, part of which appeared in the "Herald" of Thursday: "If England is in Egypt alone, it is because France refused to go with her. She has put forth all her efforts to establish the country on a sound basis, and she has done so. Egypt is no longer on the verge of bankruptcy. She is prosperous; her finances are well managed, and her army is almost sufficient for home requirements." If England were to leave Egypt tomorrow and the other Powers were to hold aloof, an attempt would be made at once to reconquer the Soudan, and chaos would follow. Besides, if the Sultan cannot restrain the people in Turkey, what is to be expected from handing over Egypt to him?

We cannot regard any combination of the Powers to force the British out of Egypt and to put Egypt again under the control of the Sultan as other than dangerous, and if it should take practical shape it would be likely to provoke the indignation of the civilized world.

RAILROAD GROSS AND NET EARNINGS FOR THE YEAR 1895.

We present to-day our compilation of the gross and net earnings of United States railroads for the calendar year 1895. The comprehensive nature of the exhibit may be judged from the fact that the total of the gross reaches over a thousand million dollars—\$1,020,074,752. This covers the roads which have made returns of both gross and net (including four Mexican and two Canadian roads), and in the present article we shall confine ourselves entirely to these. We may say, however, that in addition to these roads we have a number of others which furnish returns of gross alone. Another week we intend to combine the two, giving a statement of the gross covering nearly the whole mileage of the country.

The year of course shows considerable improvement in results, or perhaps it would be more accurate to say that it shows considerable recovery after the unparalleled shrinkage in revenues which occurred in 1894. In the article on railroad earnings in our issue of January 11 we enumerated the conditions and influences which marked the course of the year. Suffice it to say here that after the Syndicate contract in February trade and business revived—at first slowly but after-

ward with accelerating speed. The grain crops and particularly the corn crop had been poor in 1894, and this continued an adverse influence through the greater part of 1895. Furthermore the new winter-wheat crop in 1895 also proved short, thus adding another depressing agency. Then it happened too that the cotton crop in 1895 was reduced several million bales as compared with the large crop of 1894, causing a heavy loss in the cotton traffic of the Southern roads. In Florida also the orange crop was almost completely destroyed by frost. The importance of this latter circumstance in the case of special roads is shown in the noteworthy ratios of decline recorded by the Florida Central & Peninsular and the Jacksonville Tampa & Key West—over 50 per cent in gross and nearly 90 per cent in net in this last instance.

Notwithstanding all this a very substantial recovery in earnings took place. One reason for the improvement is found in the excellent spring-wheat crop raised in the Northwest, the yield in most sections being unexcelled in magnitude and extent. As a result of this many of the larger roads, like the Chicago & North West., the Milwaukee & St. Paul, &c., were reporting really phenomenal gains the latter part of the year. Another reason for the better results is found in the revival in business already referred to. Still another reason has been the absence of those special disturbing influences and conditions which proved such a serious matter in 1894. But perhaps most important of all, comparison is with very poor earnings in 1894, that year having been distinguished for a combination of adverse agencies, influences and conditions without a parallel in American railroad history, and the loss in revenues having as a result been of striking and unprecedented proportions.

	January 1 to December 31. (209 roads.)			Increase. Amount.	P. C.
	1895.	1894.			
Miles of road Dec. 31.	136,933	135,503		1,430	1.06
	\$	\$		\$	
Gross earnings.....	1,020,074,752	958,334,064		61,740,688	6.44
Operating expenses..	704,686,599	669,397,520		35,289,079	5.27
Net.....	315,388,153	288,936,544		26,451,609	9.16

The gain on the roads in our tables amounts for the year to 61¼ million dollars (6.44 per cent) in gross and to \$26,451,609 (9.16 per cent) in the net. These are large figures and yet they fall far short of the previous year's losses. It is rather curious that in the case of the gross the 1895 gain is almost precisely 50 per cent of the 1894 loss—that is, as against \$123,972,194 decrease in 1894 the 1895 increase is \$61,740,688. But if we look back a few years to the time when we were enjoying normal business prosperity, we shall find that the 1895 increase is hardly greater than the ordinary yearly increment when business is good, the increase in 1890 for instance having been 72 million dollars, in 1891 47 million dollars, in 1892 56 million dollars, &c., and these gains all being continuous. In the net the improvement of 26¼ million dollars in 1895 follows 40 million dollars loss in 1894 and 10 million dollars loss in 1893. The following shows the comparisons back to 1889.

Year & No. of roads.	Gross Earnings.			Net Earnings		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
12 = av.	\$	\$	\$	\$	\$	\$
'80 (164)	856,478,510	813,613,484	+42,865,026	238,373,692	235,814,218	+2,559,474
'90 (200)	1,007,510,768	985,399,238	+22,111,530	328,032,459	313,780,509	+14,251,950
'01 (210)	1,103,636,503	1,056,568,923	+47,067,580	353,353,918	330,797,494	+22,556,424
'02 (210)	1,083,688,637	1,027,294,855	+56,393,782	345,840,027	338,153,575	+7,686,452
'03 (198)	937,538,275	994,058,370	-56,520,095	297,907,025	308,336,687	-10,429,662
'04 (200)	969,003,527	1,001,973,721	-32,970,194	291,802,707	332,136,310	-40,333,603
'05 (209)	1,020,074,752	958,334,064	+61,740,688	315,388,153	288,936,544	+26,451,609

Speaking generally, the results were poorest in the early months of 1895 and best in the closing months, when business activity and the large spring-wheat crop added greatly to the traffic and earnings of the roads. Taking the gross as a basis, the gain in December at 10.77 per cent is the best for any month of the year, barring July, when comparison was with the time of the great railroad strike in 1894. The gain in the net for December at 17.74 per cent is also in excess of that of any other month, barring July and likewise May, in which latter month the strike in the bituminous coal regions had made the showing very poor in 1894. The following is a synopsis of the monthly comparisons. The exhibit furnishes a striking contrast with that for 1894. For 1895 we have a gain in both gross and net for every month; in 1894 we had a loss in gross and net in every month, with only a single exception.

GROSS AND NET EARNINGS.

NOTE.—The number of roads included in January was 138; in February 135; in March 137; in April 141; in May 132; in June 134; in July 138; in August 133; in September 141; in October 140; in November 139; in December 137.

Of course we have some very noteworthy gains by individual roads and systems. The Pennsylvania heads the list with an increase of 10½ million dollars in gross and 4½ million dollars in net; the latter is larger than the previous year's loss, the former not quite so large. Not a few roads greatly increased their gross earnings, with little addition to expenses, some of them with actually a reduction in expenses. Conspicuous instances of this kind are furnished by spring wheat roads like the Chicago & North Western, the Milwaukee & St. Paul, the Northern Pacific, etc.; the St. Paul with \$2,134,614 increase in gross has \$2,885,122 increase in net; the Chicago & North Western with \$2,439,267 in gross has \$2,796,193 increase in net, and the Northern Pacific with \$2,356,825 increase in gross has \$2,599,550 increase in net. The Illinois Central has added \$2,148,869 to its gross and \$2,080,160 to its net. The Union Pacific has a large loss in gross and the Canadian Pacific and the Central New Jersey have gains; they report respectively \$1,861,802, \$1,057,641 and \$1,051,334 increase in net. On the other hand some of the roads, feeling assured that the recovery in earnings was permanent, have been liberal in their outlays, and with large gains in gross receipts report diminished net earnings. The New York Central is a typical instance, recording \$2,541,306 improvement in the gross, but \$279,786 recession in the net. The following shows all the gains in excess of \$200,000 in both gross and net, and also all the losses above that figure. The latter are not numerous and comprise chiefly a few Southern, Southwestern and Pacific roads. In the net the Louisville & Nashville reports \$537,517 decrease, the Norfolk & Western \$508,096 decrease, the Oregon Improvement \$334,297 decrease, the Manhattan Elevated \$298,680 decrease, the Delaware Lackawanna & Western \$288,767 decrease, the Jacksonville Tampa & Key West \$284,561 decrease, &c.

* For year ended October 31. † For eleven months. ‡ The net increased \$1,342,329 on Eastern lines and \$2,769,369 on Western lines § For year ended November 30.

When the roads are arranged in groups the showing is just the reverse of that for 1894. Now we have every group making a gain in gross and all but one a gain in net; in 1894 every group outside of the Mexican recorded a loss in gross and all but one a loss in net. In the net the best results are by the Northwestern group and the Pacific, the one having 18.37 per cent increase and the other 16.33 per cent. The Middle Western group shows 16.53 per cent improvement, but here the exceptional gain follows chiefly from the excellent return of the Illinois Central. The Southern group is the only one having a loss in net and the Southwestern is the next poorest, with a merely nominal improvement. In some of the groups the showing for the year is quite different from that for the first six months, the large gains the last four or five months having completely transformed the character of the year's results. This is particularly true of the Northwestern group. The New England group has only 2.23 per cent increase, but here the roads have followed their usual practice of varying their expenses with the gross receipts, for in the case of these gross receipts the New England group has a larger percentage of increase than any other, namely about 11 per cent. In the following we furnish the comparisons for each group. We give here only the totals. A detailed statement showing all the separate roads in each group will be found at the end of this article.

SECTION OR GROUP.	Gross Earnings.		Net Earnings.		Inc. or Dec.

Pacific Coast (17)	118,372,426	110,142,788	40,801,554	37,074,611	+3,726,943
Southern (39)	88,158,777	87,280,762	20,675,790	20,318,412	+357,378
Mexican (2)	16,024,234	14,928,983	7,046,618	5,764,515	+1,282,103
Total (200 rds)	102,074,752	95,833,004	31,888,113	28,936,544	+2,951,569

MILEAGE.—The mileage for the above groups is as follows: New England, 5,983 miles against 5,472 miles in 1904; Trunk lines, 21,469 against 22,578; Anthracite coal, 6,083 against 6,050; Middle States, 4,538 against 4,529; Middle Western, 12,719 against 12,621; North-western, 24,426 against 24,196; Southwestern, 15,503 against 15,487; Pacific Coast, 23,698 against 23,570; Southern, 17,606 against 17,298; Mexican, 3,702 against 3,702; grand total, 136,933 against 135,503.

As regards the exhibit for December, it is unusually favorable, every group recording a gain in both gross and net. The percentages of increase are very large, too, at least in the net, being for the anthracite coal group 56.66 per cent, for the Middle Western 31.49 per cent, for the Northwestern 25.37 per cent, for the Pacific 30.43 per cent, and for the Mexican 26.37 per cent.

The excitement in the Transvaal is dying out, and there are hopes entertained that President Kruger will visit this country. Unfortunately Mr. Chamberlain published the dispatch in which he invited the President and indicated the policy he would recommend, without waiting for its arrival in South Africa. The publication has given offence to President Kruger, who in a rather angry reply declares that he will suffer no interference in the internal affairs of the Republic, and apparently declines to visit London. It is hoped, however, that explanations will remove his annoyance and that he may be ultimately prevailed upon to come over. In any event the danger of a rising at Johannesburg or of an invasion from abroad is now removed, and as Mr. Chamberlain will continue to urge reforms some concessions will doubtless be made. On the other hand the German party in the Transvaal and the German Government are encouraging President Kruger to resist; and Germany is apparently intent upon disputing the paramount influence of Great Britain. But the impression grows that peace all over the world is assured, for the present at all events.

Russia is reconciled with Bulgaria and is about to recognize Prince Ferdinand. Russian influence at Constantinople is all-powerful; and it evidently is under these circumstances to the interest of Russia to prevent disturbances in Macedonia. Further, Russia will discourage in every possible way any disturbance of the peace while she is consolidating her power in Southeastern Europe and on the frontier of Asia Minor, and is completing the construction of the Siberian railway.

The first instalment of the correspondence relating to Armenia has been published, and it causes astonishment how Lord Salisbury could have assured his hearers at the Lord Mayor's banquet that the concert of Europe was a reality. The correspondence, it is true, comes down only to October; but it makes it very clear that Russia never intended to coerce the Sultan and was altogether opposed to home rule for Armenia.

The active collection of the revenue is reducing the supply of loanable capital in the open market, and rates are slightly higher. But the Government expenditure is so large that the disbursements from the Treasury before long must be on a great scale and therefore the hardening of the market is not likely to last. Meantime the Continental exchanges are mostly favorable to this country and gold is coming in large amounts from the Continent, from South Africa and from Australia.

The silver market is fairly steady and the India Council continues to sell its drafts wonderfully well. On Wednesday it offered 60 lakhs. The applications exceeded ten times as much, and the price was only slightly under 1s. 2½d. per rupee.

Early in the week the rise in the South African department, which began about ten days ago, continued. It made rapid progress indeed on Monday and Tuesday. In some cases the advance was fully 100 per cent and in very many from 25 to 50 per cent compared with the lowest quotations of the crisis. Since Tuesday, however, there has been profit-taking on a very large scale, those who bought in the middle of the panic thinking it well to realize now. But for all that the market is firm, and the general impression is that after a pause of perhaps a week or so there will be another rapid advance.

There has likewise been more business in the Western Australian market, though it has been far less active than the South African. Mr. Rhodes surprised every one by returning to Charterland at the end of last week. As Dr. Jameson, who is Administrator of the country, is a prisoner, there is need for a strong-willed and an energetic man to prevent future disturbances. And, further, it was no doubt held advisable by Dr. Jameson's counsel to get Mr. Rhodes out of the way before he addressed a public meeting, lest he might make some statement which would prejudice the defense. Unfortunately Mr. Rhodes's return is regarded as a menace by the Boers, and probably that is one reason of President Kruger's reluctance to visit this country. He may fear that in his absence another attack might be made.

The American market has been somewhat more active, and quotations here have followed the lead of New York. But the general public is still holding aloof. There has, however, been more business done by professional operators. The investor proper is still confining his operations to South African and Western Australian properties, to purely British stocks

and to Argentine. Consols have been over 109 this week, and there has been a further advance in several British railway stocks. Industrial securities, too, are generally coming into favor. There is some buying of Argentine railway stocks though not as much as a little while ago; but most other South American securities are neglected. Continental securities are quite out of favor, though they are very well supported on the Continent, especially in Paris.

French investors and operators are once more taking an interest in the South African market; indeed, part of the rise is due to their operations, and it is reported from Germany that numerous syndicates are being formed there for the purpose of acquiring mining property and entering upon railway building and other enterprises. The Germans, it is evident, are determined to compete in every way possible for influence in South Africa.

Messrs. Pixley & Abell write as follows under date of February 13:

Gold.—There has been a good demand for gold during the week, and the open market proving unable to fill requirements, recourse has been had to the Bank of England, which has sold £661,000. Of this £258,000 has been shipped to New York and £403,000 to Chili. Arrivals: Capetown, £105,000; Chili, £7,000; Australia, £30,000; Japan, £49,000; total, £191,000.

Silver.—With a good enquiry for the East, the market has been very steady and closes at 30½d. Arrivals: New York, £149,000; Chili, £34,000; total, £183,000.

Mexican Dollars.—These coin have not been much dealt in since our last and the nearest price is now 30½d. Arrivals from New York, £16,000.

The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, FEB. 28, 1896.—3 P. M.

The Money Market and Financial Situation.—The volume of business in railway and other securities has been smaller during this week than for several weeks past. This is due in part to a mild reaction which has naturally followed the advance in values which had taken place. Notwithstanding a tendency to weakness on account of liquidation to realize profits, the undertone is strong and general conditions seem to favor the long side of the market.

With the abandonment of the Tariff Bill in the Senate, the certainty that no silver legislation can be enacted during the present Congress, and the Government gold reserve at about 125 millions, with a prospect of going over 130 millions, the financial situation would seem to be reasonably sound and free from possible disturbing influences.

Americans have been dull in London this week, partly due to the fortnightly settlement which has taken place, and the European markets have not been an important factor in Wall Street. The money market is well supplied with funds, and as the bond payments are nearly completed, time money is more freely offered and the tendency of rates is downward.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 3 to 5 per cent. To-day's rates on call were 3 to 3½ per cent. Prime commercial paper is quoted at 5@6 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £318,438, and the percentage of reserve to liabilities was 63.39 against 63.28 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 2,631,000 francs in gold and 3,049,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 21 showed a decrease in the reserve held of \$9,016,900 and a surplus over the required reserve of \$28,627,050, against \$36,818,875 the previous week.

Surplus reserve	28,627,050	Dec. 8,191,825	29,829,725	74,767,500

Foreign Exchange.—Owing chiefly to a falling off in the supply of bills the foreign exchange market has become firmer and rates have advanced as the week draws to a close. The demand continues light.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 86¼@4 87; demand, 4 87¼@4 88; cables, 4 88@4 88¼.

Posted rates of leading bankers are as follows:

February 28.	Sixty Days.	Demand.
Prime bankers' sterling bills on London...	4 87 ½ @ 4 87 ½	4 88 ½ @ 4 89
Prime commercial	4 86 ¼ @ 4 86 ¼	
Documentary commercial	4 85 ¾ @ 4 86	
Paris bankers' (francs)	5 18 ½ @ 5 18 ½	5 16 ½ @ 5 16 ½
Amsterdam (guldens) bankers'	39 ½ @ 40	40 ¼ @ 40 ¼
Frankfort or Bremen (reichmarks) bankers'	94 ½ @ 94 ½	95 ¾ @ 95 ¾

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 1-16 discount, selling par; Charleston, buying par, selling ¼ premium; New Orleans, bank, \$1 50 premium; commercial 50c. per \$1,000 discount; Chicago, \$1 00 per \$1,000 discount; St. Louis, 50@75c. per \$1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include \$781,000 4s coup. 1925 at 116½ to 117¼; \$8,000 4s reg. 1935 at 117¼; \$1,000 4s coup. 1907 at 111; \$18,500 4s reg. 1907 at 109¾ to 110¼; \$1,000 5s. reg. at 113½ and \$30,000 5s coup. at 113¼ to 113¾. The following are the closing prices:

Fine gold bars.	par	@ ¼ prem.	U. S. trade dollars.	55	@ — 75

State and Railroad Bonds.—State bonds have been dull. Sales at the Board include \$25,000 Virginia 6s defd. trust receipts, stamped, at 6½ to 6¾ and \$2,000 Virginia fund. debt 2-8s of 1891 at 61½.

The railroad bond market has been somewhat irregular this week and the volume of business has decreased. While some of the Atchisons, Northern Pacifics, Oregon Short Line and a few other issues have been strong, the tendency of the market has been to weakness, and the active list has generally declined. Baltimore & Ohio 5s, 1925, in sympathy with the stock, have scored the heaviest decline. The rumors in regard to the financial condition of this company seem to have been exaggerated and are most unfortunate. The Atchisons and Northern Pacifics have been most active during the week, and the transactions in them aggregate a large amount. The active list includes also the Chesapeake & Ohio, Chicago & Northern Pacific, Denver & Rio Grande, Ft. W. & Den. City, Louisville & Nashville, Mo., Kan. & Texas, Reading, Southern Ry., Texas & Pac., Wabash and West Shore bonds.

Railroad and Miscellaneous Stocks.—It was not to be expected that the buoyancy and advance in prices which characterized the stock market for two weeks following the opening of bids for the new Government bonds would continue without interruption for any considerable length of time. The reaction which has taken place this week was a perfectly natural movement until to-day, and was largely the result of a desire to take profits by parties who bought stocks during the two months previous to February 5th. To-day the market opened strong on higher London quotations, but the discussion in the United States Senate on the question of recognizing the belligerency of the Cuban patriots led to extensive liquidation in the afternoon, and prices declined rapidly. With the exception of Baltimore & Ohio, the decline of the active railroad list will average a fraction over one per cent. Baltimore & Ohio has been the principal feature of the week, and on various rumors about the financial condition of the company declined to 26 on Thursday, the lowest point at which it has ever sold, and closes to-day at 27½. It is interesting to recall that this stock sold within a month at 44½ and within six months at 66¼.

The industrial list has generally followed the drift of the market. Am. Sugar sold on Wednesday at 118½, the highest price it has reached since last June, closing to-day at 115. Am. Tobacco has lost 2½ points and U. S. Leather pref. has declined 7½ points to 60½ on the publication of the annual report of the company.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. † These figures include results on leased lines. ‡ Includes earnings from ferries, etc., not given separately. § Mexican currency. || Includes only half of lines in which Union Pacific has a half interest. ¶ Last year's earnings were swelled by the strike on the surface roads.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:
For the third week of February our preliminary statement covers 60 roads, and shows 6.53 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. Besides the roads furnishing monthly returns, we have added this time the roads which make quarterly returns.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 408.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in November was \$101,053, against \$86,193 last year, and for eleven months to November 30 \$977,760, against \$841,028. After adding earnings received from Federal Government net from January 1 to November 30, 1894, was \$904,915. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

d Figures for 1895 do not include results on Albany Florida & Northern after August 14, while the figures for 1894 do include them.

e Results of coal mining operations only.

f Including other income, the net for January, 1896, was \$84,495, against \$68,884, and from July 1 to January 31 \$389,402, against \$355,865.

g Included in expenses for December, 1895, is \$15,723, and from July 1 to December 31, 1895, \$102,475, which in former years would have been charged to betterments.

h Expenses for 1895 include \$7,746 for new rails and fastenings.

i Includes only one-half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union.

j Expenses for 1895 include \$68,500 for ballast and new equipment, against \$95,000 for the same purpose in 1894.

k Included in expenses for 1895 is one-twelfth of the entire taxes for the year.

l Including income from ferries, &c.

* After allowing for other income received.

† These charges are simply for taxes and rentals of leased lines and do not include bond interest.

‡ After allowing for traffic guaranty from K. C. Ft. Scott & Memphis.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for

† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

ANNUAL REPORTS.

Annual Reports.—The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which have been published in the CHRONICLE since the last editions of the INVESTORS' AND STREET RAILWAY SUPPLEMENTS.

This index does not include reports in to-day's CHRONICLE.

NOTE.—Full-face figures under STREET RAILWAYS refer to Vol. 62.

Deaware & Hudson Canal Co.

(Report for the year ending Dec. 31, 1895.)

President Robert M. Olyphant in his annual report quotes, as applicable to the condition of affairs in 1895 a passage from the report for the year 1847, which refers to the strength of the company in spite of the depressing influence of the low price for its chief staple, and the prosperity to come when the shortly expected advance in the price of coal takes place.

President Olyphant adds:

Owing to freshets in the early season, our canal was injured to the serious detriment of our boats, while later on navigation was suspended by drought for nearly two months, a thing unprecedented in our history. Again, in November our trans for chutes at Carbondale were destroyed by fire, seriously interfering with the production and distribution of our coal. Under such circumstances the result of the year's business may justly be considered very satisfactory.

The total output of coal for the year was 46,545,761 tons.

	Tons.	
Of which your company produced.....	4,347,843 14	
And transported for others.....	1,903,303 14	
Total tons.....	6,151,147 08	
The gross receipts were.....	\$18,919,618 17	
Expenses.....	13,376,732 50	5,442,885 67
Less taxes, interest and rentals.....		3,078,491 75
Leaving net earnings.....		\$2,364,393 92
Or a fraction over 6 3/4 per cent on the capital stock.		

Leased Lines.—The leased lines of the company are in very fine order, and the outlay for permanent improvements, mentioned in the last report, is showing good results in the decrease of working expenses. Owing to the increase of traffic over the Albany & Susquehanna Railroad it has been decided to complete the double-tracking of that road, some 27 miles. The result of the year's business shows a very much diminished loss for the leased lines, being only \$28,647, against \$224,295 the previous year.

Equipment, Etc.—The additions to equipment during the year were: 6 passenger locomotives; 200 coal cars; 150 box cars; 3 mail cars; 1 combination car, Gravity RR. 6,937 tons of steel rails were paid for and charged to operating expenses, and over \$30,000 was charged off for depreciation of equipment.

Sale of Securities.—A comparison of the balance sheet with that for the previous year shows a decrease in the amount of Rensselaer & Saratoga stock owned of 8,000 shares, or \$800,000 par value.

Statistics.—The statistics for four years have been compiled for the CHRONICLE as follows:

* These miscellaneous assets consist of the following: Sundry bonds, \$52,170; 4,500 shares Albany & Susquehanna RR., \$150,000; 8,000 shares Rensselaer & Saratoga RR., \$80,000; 40,000 shares Rutland RR., \$1,500,000; sundry stocks, \$285,808.
† Interest and dividends payable January, \$176,550; dividends interest and bonds unpaid, \$137,160.
‡ Of this \$6,037,044 is No. Coal & Iron Co.—V. 62, p. 228.

Chicago S. Paul Minneapolis & Omaha Railway.

(Report for the year ending Dec. 31, 1895.)

President Marvin Huzhitt says in the annual report:

General Results.—During the first half of the year there was a decline in the monthly gross earnings which continued until the gradual improvement in general business and the assurance of good crops diminished the shrinkage and finally turned the scale to an increase, so that at the close of the year there was a gross gain of \$311,144 in railroad earnings. By the practice of concurrent economies the company is able to present a larger net result than that secured from the business of the previous fiscal year. The reduction in cost of operating and all items was \$95,090, which saving was effected without detriment to the property. The rolling stock was well maintained and new equipment of modern type was supplied to fill vacancies and was included in operating expenses. The replacement of wooden trestles and culverts with structures of iron and steel was also continued.

The movement of lumber on the Northern Division was comparatively light, not having recovered from the depression of the preceding year, while at the same time the movement of some other commodities shows a gratifying increase.

The construction of dock in Allouez Bay, East Superior, connecting with new yard at Itasca, forms a valuable addition to terminals on Lake Superior.

Traffic.—The passenger earnings show an increase of 2 18-100 per cent; the freight earnings an increase of 2 66-100 per cent; the total number of tons of freight carried was 3,141,083, an increase of 8 19-100 per cent; the average rate per ton per mile was 1 150-1000 cents, an increase of 1 14-100 per cent; the average distance each ton was carried was 148 24-100 miles, a decrease of 6 15-100 per cent.

Bonds.—The funded debt Dec. 31, 1895, was \$24,841,127, less \$673,327 of bonds and scrip on hand, making the net amount of bonds outstanding \$24,167,800, the same as was reported the last preceding year. During the year the company acquired and now holds in its treasury an issue of \$1,500,000 of Superior Short Line Railway Co. first mortgage bonds, received in adjustment of accounts upon its merger and consolidation with this company.

Superior Short Line Ry.—On Aug. 1, 1895, was effected the merger into this company of the Superior Short Line Ry., consisting of a railroad extending from Duluth to a junction

with this company's line at the city of Superior, Wis., with approximately 10 miles of main line and 33 miles of side tracks, including station grounds, lots and land in the cities of Duluth and Superior, docks, basins, depots, etc., comprising valuable terminal facilities. The property was constructed with the approval of this company and with its moneys and have been operated by it under separate corporate organizations.

Statistics.—The following statistics for four years have been compiled in the usual form for the CHRONICLE:

OPERATIONS AND FISCAL RESULTS.

Sacramento Electric Power & Light.

(Report for the year ending Jan. 31, 1896.)

In July last much interest was aroused by the announcement (See CHRONICLE July 27, p. 153.) that this company had begun the transmission of power from the falls of the American River at Folsom, a distance of 21 miles, to Sacramento, Cal., where it would be used to run the street cars and electric-light plant, and to supply power. Too late for the February issue of the STREET RAILWAY SUPPLEMENT has now come to hand the following interesting statement, furnished by the company, of which Albert Gallatin is President and Joshua B. Barker Secretary and H. ratio P. Livermore General Manager:

Plant.—"Our company has fully absorbed all the street railways of Sacramento City (24½ miles), and has also acquired the exclusive power rights of the Folsom Water Power Co., and are now transmitting the said power to Sacramento City. The transmission plant No. 1 now in operation has a capacity of 4,000 horse power; of this power approximately 300 horse power is being used in the operation of the street railway system of Sacramento, operating ordinarily 23 cars and on occasions up to 34 cars; the city being perfectly level the consumption of power is comparatively very light. The company has as yet utilized in addition to the 300 horse power service only 650 h. p. for lighting and motor services, a total of 950 h. p., being less than one-quarter of the entire output of its transmission plant No. 1, the net results of said 550 h. p. being already very considerably in excess of the entire fixed charges and operating expenses of the company.

Earnings.—Commencing with July, 1895, the power plant has operated the street railway system continuously, but it was not until October and November that the Sacramento power-house and the Sacramento City system of distribution for lighting and motor power were completed so as to operate. On the first of December, 1895, the company commenced

lighting the city streets of Sacramento under a contract whereby they receive \$9.75 per lamp for a constantly increasing number of lamps, the receipts for the current month being \$3,232.75. In like manner commercial and lighting and incandescent lighting and motive power business is constantly being secured, so that this plant is now taking in upwards of \$4,500 per month, independently of its railway business. We are so constantly enlarging the business in the lighting and motive power departments, that nothing further than an approximate report can now be made on this line. We therefore confine ourselves in this report to the railway receipts and operating expenses exclusively. No charge is made against the railway system for motive power." Disregarding this one item, gross earnings of the railway for the year ending Jan. 31, 1896, were \$151,500; net over all operating expenses [except motive power as stated] \$32,047.

Financial.—The company has issued \$1,500,000 capital stock, also \$1,500,000 of 6 per cent gold bonds due Nov. 1, 1923, of which there are reserved \$115,000 to retire at maturity (\$365,000) Central Electric Ry. bonds and \$150,000 Folsom Water Power bonds still outstanding.

Later when everything is in working order a comprehensive report of the entire property will be issued.—V. 61, p. 153.

North Hudson County Railway.

(Report for the year ending Dec. 31, 1895.)

This company owns about 5½ miles of road in Hoboken, N. J., and vicinity. The CHRONICLE has this week been favored with a statement of the earnings for the late year and of the funded debt on Dec. 31. The officers of the company are: President, M. Tierney; Secretary, F. J. Mulbury; Treasurer, N. Goetz, and General Manager, W. H. Starr.

Earnings were as follows:

Year ending Dec. 31—	Gross earnings.	Net earnings.	Other income.	Fixed charges.	Balance, surplus.
1895.....	\$967,739	\$217,909	\$3,513	\$246,949	\$1,791

Stock and funded debt statement D. c. 31, 1895:

Stock and Bonds—	Date.	Interest.	Outstand'g.	Maturity.
Stock auth., \$1,250,000 (\$25).....			\$1,000,000	
First mortgage.....	1881 6 J & J		620,000	June 1, 1914
Cons. mort. (\$3,000,000).....	1898 5 J & J		2,378,000	July 1, 1923
Second mortgage.....	1894 5 M & N		550,000	May 1, 1904
Debentures.....	1892 6 F & A		439,000	Feb. 1, 1902
Weshawken extension mort. 1895 5 F & A			100,000	Feb. 1, 1915

Consols for \$620,000 are reserved to retire the firsts of 1884.

Louisville Railway.

(Report for the year ending December 31, 1895.)

The following official report made by President J. B. Speed at the annual meeting is furnished through the courtesy of Mr. Thomas G. Watkins, Financial editor Louisville Courier-Journal:

The total mileage of the company is now 145, of which 105 miles have been converted into trolley roads, leaving 40 miles still operated by animal power. During the year 13 miles have been changed into electric roads, consisting of the Sixth, East Chestnut and Barret Avenue line, and the West Market Street line to Shawnee Park. In addition to this work, considerable track has been equipped for electricity on repaired streets, and additions have been made adding materially to the power house.

Continuing the policy of the company of converting the remaining line into electric roads as rapidly as its means will permit, the work of changing the Seventh, Twelfth and Fifteenth streets lines is now in progress, and will be completed as soon as practicable.

It is generally admitted among street railway men that more cars are run in Louisville in proportion to gross receipts or passengers carried than in any other city, and during the past year the company has maintained this reputation of quick and ample service by a largely increased mileage. The ample transfer service of the company has been added to somewhat during the year, and it is contemplated to still further extend this system, which is of such importance to the laboring classes, from time to time, as it can be done without injury to the efficiency of rapid transit.

EARNINGS, EXPENSES, ETC.

Year end. Dec. 31—	1895.	1894.

—V. 60, p. 1058.

United States Leather Company.

(Report for the year ending Dec. 31, 1895.)

Secretary Josiah T. Tabby in the annual statement to stockholders says:

General Business.—While the declared profits for the year are satisfactory, yet the uneven course of trade, resulting in part from special causes but largely as a reaction from the depressed conditions of 1893-94, has been an unfavorable feature. The general improvement noted in the last annual report continued over the first quarter of the present year, and prices for leather slowly advanced, following continued higher rates for hides. In April, May and June the advance upon both hides and leather was rapid and violent, the rate culminating in June, prices being maintained until the end of August. Later, under the influence of an abnormally restricted demand, values for both hides and leather rapidly declined, the close of the year finding a falling market for leather, a slight improvement in the value of hides and a general feeling in the trade at large that with a settlement of the country's political and financial difficulties a return to normal conditions might be reasonably expected.

Repairs and Betterments, &c.—Your directors have continued the policy of sparing no reasonable expense in improving the physical condition of your properties, whether by repairs, ordinary or extraordinary. A like policy has been pursued by tanning companies in

which you are interested, resulting in a total amount expended: For repairs during the year, of \$510,073; and for betterment, \$254,535; a total of \$764,608; all of which has been charged to expense.

The company has begun the erection of one tannery, which is well under way, and tanning companies in which you are interested have purchased for cash three other properties. Numerous parcels of bark lands in fee and contracts for bark on the tree have been made, and your tanneries are as well protected with bark and bark lands at the close of the year as at the time of the company's organization.

Financial. Due to the higher basis for leather and hides, coupled with a very limited demand for its products during the last four months of the year, your directors have found it desirable to become temporary borrowers of money. In May, 1893, the date of the company's organization, it was estimated that a working capital of \$10,000,000 would be required to properly conduct its business, and debenture bonds to this amount were authorized, of which \$6,000,000 only were sold, \$4,000,000 having been since retired. Abnormally low prices for hides and leather during 1893-94, together with a restricted business, made it possible for the company to conduct its affairs without selling its remaining debentures. When, however, prices of hides had advanced and the quantity of both hides and leather in the company's hands had increased, it became necessary to obtain more working capital, and your directors thought it wiser to borrow temporarily on the treasury bonds rather than to dispose of more bonds upon which your company would be obliged to pay a much higher rate of interest. The basis of inventory is the same as that of last year. At the close of the year the average cost of all hides held by your company, unwet, in process, and in the form of finished leather, was below the average market value for like hides upon the last day of the year.

Directors.—At the annual meeting of the stockholders Wednesday Oscar B. Grant, George W. Childs and Eugene Horton were elected directors in the places of N. W. Rice, of Boston, Josiah T. Tubby and Charles Vail.

Earnings and Balance Sheet.—The earnings and balance sheet have been prepared for the CHRONICLE as follows:

Net profits for year 1895, including interest in the undivided earnings of other companies.....	\$9,367,854
Add surplus from year 1894.....	788,755
A total of.....	\$10,156,609
Dividends paid.....	3,684,060

Surplus on Dec. 31, 1895, including the company's interest in the undivided profits of other companies..... \$6,470,609

The quick assets of the United States Leather Company compare with the previous year as follows:

	1895.	1894.	Changes.
Cash.....	1,000,159	2,634,878	D. 1,634,719
Bills receivable.....	96,790	30,279	I. 66,511
Debts receivable.....	3,037,154	3,616,565	D. 579,410
Leather and hides on hand and in process of tanning.....	11,123,374	6,564,104	I. 4,564,270
Bark, &c., at tanneries.....	1,632,312	1,841,689	D. 189,357
Advances.....	15,405,504	12,139,965	I. 3,215,539
Miscellaneous.....	80,265	I. 180,265
Total.....	32,500,559	26,877,491	I. 5,623,098

The quick assets of tanning companies in which the company owns stock compare as follows:

	1895.	1894.	Changes.
Bark, &c., at tanneries.....	3,978,566	3,903,853	I. 74,713
Leather and hides on hand and in process of tanning.....	19,882,304	14,158,939	I. 5,723,365
Cash and accts. receivable.....	405,217	42,834	D. 17,617
Sundry supplies.....	39,582	D. 39,582
Total.....	24,266,047	18,525,210	I. 5,740,877
Less amount due U. S. Leather Company.....	15,405,504	12,139,965	I. 3,215,539
All other liabilities.....	101,893	493,887	D. 391,994
Total.....	15,507,397	12,683,352	I. 2,823,545
Balance.....	8,758,690	5,841,355	I. 2,917,332
Total quick assets.....	41,259,249	32,718,819	I. 8,540,431

NOTE.—It will of course be understood that the above statement of quick assets includes only items readily and quickly convertible into cash, and excludes values of tannery lands, bark lands and bark on tree, and value of various investments in railroads, lumber companies, etc.

BALANCE SHEET DEC. 31.

NOTE.—Full-face figures under STREET RAILWAYS refer to Vol. 62.

American Security Investment.—Incorporation.—This company was incorporated at Trenton, N. J., Feb. 24, with authorized capital stock of \$30,000,000; paid in is \$350,000. The incorporators are Sidney Webster, Robert Golet Ogden Golet, R. T. Wilson, W. B. Cutting, Charles H. Tweed and William Fuller of New York, and Robert S. Green of New Jersey. The company proposes to deal in securities.

Baltimore & Ohio RR.—Official Statement.—Regarding the rumor that the result of Mr. Little's examination of the company's books had been unfavorable and that consequently the company would be unable to meet its semi-annual interest on March 1, there was given out on Thursday the following:

There is no truth in the rumor that the Baltimore & Ohio will default on March 1. The negotiations for the collateral trust loan intended to take care of floating debt and to provide new capital for the needs of the company have progressed very favorably up to the present point, and neither the members of the syndicate nor the company see any reason why the same should not be completed on a satisfactory basis. The rumors in regard to Mr. Little's report are unfounded, as he merely confirms the statements made by the report of the company's accounting officers as of Feb. 1, 1896; Mr. Little's examination confirming that report, both as to amount of indebtedness and as to the earnings of the property.

The statement of the company's accounting officers, which is here referred to, was prepared for the benefit of the New York syndicate which recently became identified with the property, and was not made public.

President Cowen is quoted as saying in addition that there is no foundation for the adverse reports, that the securities in hand against the floating debt are ample, and that the plan of rehabilitation has met the approval of the board of directors and will soon be made public.—V. 62, p. 363.

Baltimore & Ohio Southwestern Ry.—Listing.—There were listed this week on the New York Stock Exchange \$700,000 additional first consolidated mortgage guaranteed gold 4½ per cent bonds of 1893, making the amount listed \$10,483,000. These bonds are issued under

provisions in the plan of consolidation for improvements, betterments, equipment and other purposes.—V. 61, p. 929.

Bituminous Coal Roads' Agreement.—Representatives of the companies composing the new tidewater association known as the Bituminous Coal Trade Association met in Philadelphia on Tuesday, and, with one exception, signed the new pooling agreement, which is to regulate the production of the various districts and also the tidewater prices. The districts and companies represented at the meeting were: (1) Clearfield, etc., districts and the *Pennsylvania Railroad Co.*; (2) Cumberland, etc., district and the companies shipping via the Baltimore & Ohio, including the *American Coal, Maryland Coal, New Central Coal, Consolidation Coal, Black-Sheridan-Wilson* coal companies; (3) Pocahontas district and *Norfolk & Western Railroad Co.*; (4) *Chesapeake & Ohio RR.*; (5) Beech Creek, etc., districts, and *Beech Creek RR. Co.*; (6) *West Virginia Central & Pittsburg Ry.* Secretary Stuart, of the Consolidation Coal Co., alone declined to sign the agreement, but his objection to so doing was entirely out of deference to the new President of the company, C. K. Lord, with whom he had not been able to confer since the latter's election a week ago. No fear apparently is entertained but that the Consolidation Coal Company, which is affiliated with the Baltimore & Ohio RR., will instruct its representative to sign the agreement, and thus secure unanimous action.

The substance of the new agreement is as follows: The pooling of all tonnage to be equitably divided monthly, with a money forfeit of 50 cents a ton for either over shipments or cutting of prices. No coal to be sold for future delivery through guarantee of a fixed freight rate. The percentages of tonnage allotted to each road or district to be based upon the average shipments during the past three years. There is to be a general selling agency for each of the six districts, and each agency will control the production and make sales to be equitably divided among the operators on their respective railroad systems. In the Clearfield district there are many small operators, involving the shipping of but a few cars each day. To provide for these, and to prevent outsiders from securing this coal, a central purchasing company, the *Pennsylvania Bituminous Coal Co.*, has been organized to buy the coal of such small operators.

Brooklyn Traction—Atlantic Avenue RR.—Nassau Electric RR.—Lease.—The long-pending negotiations between the principal owners of the Brooklyn Traction Company (which controls the Atlantic Avenue RR. Co. of Brooklyn) and the Nassau Electric RR. Co. have now reached a point where it is authoritatively announced by representatives of both parties to the contract that only the formal action of the holders of the stock, of which they represent a majority, is needed to render the agreement effective. Under the terms as finally adjusted the Nassau Electric RR. Co. will have a direct lease of the Atlantic Avenue RR., which carries with it the Brooklyn Bath & West End road. This lease is for 999 years, and calls for a yearly rental of \$150,000 for the first two years, and of \$180,000 thereafter. The lessee will pay all charges and expend \$500,000 in improving the property. An option is also given to the lessee to purchase the stock of the Atlantic Avenue RR. Co. at a price not made public.

Reorganization.—The plan involves the reorganization of the Brooklyn Traction under a new title, and the issue of \$4,500,000 new common stock to retire the Brooklyn Company's \$3,000,000 of preferred and \$6,000,000 of common stock. The old preferred will be exchanged share for share for the new stock. Holders of the old common stock who subscribe for Brooklyn Bath & West End consols at par to the extent of 7½ per cent of their holdings will receive 25 shares of new stock for 100 shares of old. Holders of common stock not so subscribing will receive 15 shares of new stock for 100 shares of the old.

Effect of Lease.—The lease will give to the Nassau Company its desired access to Fulton, Catherine, Wall Street, South and Hamilton ferries, as well as to the entrance of the Brooklyn Bridge and to the Flatbush Avenue railroad station.—V. 62, p. 277.

Called Bonds.—CHICAGO & NORTH WESTERN.—In our advertising columns are given the numbers of sinking fund bonds of 1873 called for payment.—V. 62, p. 363.

Chattanooga Electric Ry.—Sold in Foreclosure—Reorganization.—This property was purchased at foreclosure sale on Monday by C. A. Lyerly, representing holders of the consolidated mortgage bonds, for \$38,000, subject to old first mortgage bonds for \$550,000. Upon confirmation of sale a new company will be organized and will issue \$350,000 stock and a like amount of bonds. The holders of the old consols (also called second mortgage bonds) will, it is stated, be given new stock in proportion to their holdings. Of the \$650,000 consols outstanding \$156,000 are held by the committee, which includes or at least represents Thos. H. West, of St. Louis; G. W. Meade, of Brooklyn; W. T. Adams, of Corinth, Miss.; Percy Warner, of Nashville, and others.—V. 61, p. 1154.

Chicago City Ry.—Lease.—This company, as required to do by its charter, has applied to the Common Council of Chicago for permission to lease the *Southwest Chicago Rapid Transit Company's* line, which extends from Ashland Avenue on Sixty-third Street to Chicago Lawn, 2½ miles.—V. 62, p. 133.

Chicago & Northern Pacific RR.—Litigation.—At Chicago, Feb. 25, the Chicago & Northern Pacific stockholders presented to Judge Jenkins in the United States Circuit

Court a petition for a modification of the original order appointing the receivers. The petitioners assert that under the terms of the mortgage by which the Farmers' Loan & Trust Company seek to foreclose, the trustee of the mortgage could not enter upon the property until after six months' default in payment of interest, whereas the receivers were appointed one week after default. The Court is therefore asked to decree to the railroad corporation all the rentals collected by the receivers prior to April 3, 1894, amounting to about \$400,000. The receiver is also charged with taking possession of \$3,500,000 par value of bonds not secured, it is claimed, by the mortgage.—V. 62, p. 319.

City & Suburban Ry.—Lake Roland Elevated Ry., Baltimore—Guaranty.—The City & Suburban Ry. Co. has arranged through Messrs. Alexander Brown & Sons, of Baltimore, to guarantee the entire issue of \$1,000,000 Lake Roland Elevated first mortgage 5s, due 1942.—V. 60, p. 743.

Cleveland & Canton RR.—Listing of Reorganization Receipts.—There were listed this week on the New York Stock Exchange \$1,479,000 certificates of deposit for first mortgage 5 per cent bonds of 1917 issued by the Mercantile Trust Company under the agreement prepared by the Corbin committee dated Oct. 10, 1894.—V. 62, p. 232.

Colorado Fuel & Iron.—Listing.—There were listed this week on the New York Stock Exchange \$2,021,000 general mortgage 5 per cent sinking fund gold bonds of 1943. These bonds are part of an authorized issue of \$8,000,000. They were sold some time ago to supply working capital for improvements upon the company's steel works, for opening and equipping additional mines, and completing additional coke ovens. The remainder of the issue is held by the trustee for the retirement of underlying liens.—V. 62, p. 133.

Columbus Central Ry., Columbus, O.—Trackage Rights Granted.—In Columbus, Ohio, Saturday, Feb. 23, at a meeting of the Board of Public Works, the Columbus Central Railway was granted the right to connect its line at Fulton Street in the southern part of the city with the tracks of the Columbus Street Railway, and to run its cars over said tracks on High Street to Spruce Street. This makes a joint occupancy by both companies of the important territory on High Street, a distance of about 7,500 feet.

Columbus Hocking Valley & Toledo Ry.—Favorable Decision.—This company will have returned to its treasury \$982,000 of its 6 per cent bonds, which have been deposited since 1891 with the Atlantic Trust Co. to secure a judgment against the company pending trial. The suit was brought by Judge Burke against the old management and the decision by the Court of Appeals in Columbus, O., in favor of the company rendered Jan. 21 will release the bonds. The judgment has been carried in the item of "bills payable," which is therefore just so much reduced. The \$8,000,000 Belden suit against Judge Burke was ended last November, as far as the courts in New York are concerned, by the decision of the Court of Appeals, both sides having agreed to abide by said decision.—V. 61, p. 966.

Management.—Mr. W. A. Miles, the General Manager of C. H. V. & T. and who has been connected with the company for twenty years, will succeed Mr. Waite, the late President, in the management of the road until a new President can be elected.

Wellston & Jackson Branch Completed.—The new 22-mile branch, known as the Wellston & Jackson Belt Line RR., has been opened, and is expected to prove a valuable feeder. The C. H. V. & T. will guarantee the \$300,000 bonds. This branch is operated with electricity.—V. 62, p. 182.

Delaware Lackawanna & Western RR.—New Director.—On Tuesday the old board of directors was re-elected with the exception that Moses Taylor Pyne was chosen to succeed the late George Bliss.—V. 62, p. 319.

Denver City Cable Ry.—Sale Confirmed.—The foreclosure sale was confirmed Feb. 17. The new securities will be issued at once.—V. 61, p. 470.

Equitable Gas Light.—Listing.—There were listed this week on the New York Stock Exchange \$200,000 additional first consolidated mortgage 5 per cent gold bonds of 1932, making the amount listed \$2,500,000. These bonds are issued for the enlargement and extension of the company's plant.

Evansville & Richmond RR.—Evansville & Terre Haute RR.—Foreclosure Sale.—The foreclosure suit under the Evansville & Richmond mortgage is brought by the mortgage trustee at the instance of the Evansville & Terre Haute RR. Co., which holds nearly all the bonds of the E. & R. The E. & T. H. is made a party defendant, not as guarantor but as holder of floating debt.—V. 62, p. 364.

Green Bay Winona & St. Paul.—Sale Postponed.—The sale of this road, fixed for March 3, will be postponed four weeks on account of the appeal in the Moury suit. The case involves the question of prior right of \$105,000 of underlying bonds which never went into the prior reorganization. Moury's appeal will be heard in the U. S. Circuit Court at Chicago in the course of the next few days.—V. 62, p. 334.

Humeston & Shenandoah.—Date of Foreclosure Sale.—The sale will take place at Clarinda, Ia., after four weeks' notice of sale, i. e., during the latter part of March. The upset price is \$500,000.—V. 62, p. 320.

Interior Conduit & Insulation.—New Bonds.—A special meeting will be held on March 9 to consider whether the company shall issue \$200,000 bonds.—V. 60, p. 1060.

Jacksonville Tampa & K. y West Ry.—Upset Price Changed.—Judge Locke of the United States Court at Savannah has changed the upset price for this property at foreclosure sale from \$300,000 to \$350,000.—V. 62, p. 361.

Kinderhook & Hudson RR.—Foreclosure Sale.—This road has been ordered sold on March 7.—V. 62, p. 277.

Lake Shore & Michigan Southern Ry.—Quarterly.—Earnings for the quarter and the 12 months ending Dec. 31 as reported to the State RR. Commissioners are given below. Dividends of 6 per cent, amounting to \$2,967,990, were paid in each year. The results with the month of December, 1895, partly estimated, were given in V. 61, p. 1107, and a comparison will show but a slight difference.

3 months end, Dec. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895.....	\$5,849,571	\$1,594,474	\$80,087	\$1,099,514	\$555,027
1894.....	5,269,483	1,905,451	84,322	1,156,217	733,556
12 months—					
1895.....	\$21,014,034	\$7,097,760	\$412,979	\$4,482,426	\$3,028,313
1894.....	19,557,868	7,055,332	409,356	4,496,251	2,968,937

—V. 61, p. 1107.

Lehigh Valley Railway of New York.—Quarterly.—This company comprises the Lehigh Valley RR. lines in New York, 283 miles. Earnings for the quarter ending December 31 have been reported as follows. Earnings for the 12 months ending Sept. 30 were given in V. 61, p. 1013.

3 months end, Dec. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1895.....	\$1,543,574	\$630,169	\$260,765	\$369,403
1894.....	1,326,364	470,102	216,710	243,392

—V. 62, p. 361.

Little Rock Hot Springs & Texas RR.—Receiver.—John G. Lonsdale has been appointed receiver by Judge Williams, of the Federal Court at Little Rock, Ark.—V. 61, p. 291.

Madison City (Wis.) Ry.—Receiver Appointed.—On application of the Guarantee Trust Co., the mortgage trustee; the Madison City Railway has been placed in the hands of F. W. Oakley of Madison, Wis., as receiver in a suit to foreclose the first mortgage for \$150,000.

Manhattan Elevated RR.—Damages.—The Wall Street Journal says: "There has been a great deal of interest in the amount of land damages paid by the Manhattan Elevated Co. We have them for a series of years as follows: In 1891, \$1,053,642; 1892, \$922,159; 1893, \$835,427; 1894, \$676,991; total, \$3,494,129. This is an average per annum of \$873,532. The favorable feature is the fact that the damages paid have decreased each year."—V. 62, p. 365.

Monongahela River RR.—Baltimore & Ohio RR.—New Mortgage.—The Monongahela River RR. Co., whose bonds of 1889 are guaranteed by the Baltimore & Ohio, has made a mortgage for \$1,500,000 to the American Banking & Trust Co., of Baltimore, Md., as trustee, to secure \$1,500,000 gold bonds due in 1945. It is stated the bonds are authorized to pay for the construction of a railroad from Fairmont, W. Va., to Clarksburg, W. Va., and of branch roads not more than 50 miles in length; also if desired, a branch to develop the coal territory of the upper Monongahela River region, W. Va., where the company has acquired the property of the Monongahela Coal & Coke Co., comprising 14,000 acres of coal lands.

Nashville Chattanooga & St. Louis Ry.—Listing.—There were listed this week on the New York Stock Exchange \$116,000 additional first consolidated mortgage 5 per cent gold bonds of 1928, making the amount listed \$5,094,000. The new bonds were issued to replace bonds redeemed.—V. 61, p. 1107.

National Linseed Oil.—Reduction of Capital Stock.—A special meeting of the stockholders has been called for March 26 to act on the proposed reduction of the capital stock from \$18,000,000 to \$9,000,000. In a circular to the stockholders President Euston says:

At the time of organizing the company it was the prevailing practice of like concerns to capitalize the "good will" of the business, and the proposed reduction would merely pay out this. It is the opinion of the directors, if such reduction is voted, that the capitalization of \$9,000,000 would fairly represent what it would cost to acquire the locations and plants as at present equipped. The capitalization being fixed at \$9,000,000, criticism will be disarmed and the annual statements be more intelligible. The change does not destroy or reduce any of the actual assets of the company. Dividends on a capitalization based on actual values can be paid with greater regularity. A full expression of opinion is desired, as a vote of two-thirds of the stock is necessary to carry the proposition. In the event of the reduction being made the regular transfer agents of the company will issue new certificates in lieu of the certificates now outstanding.—V. 62, p. 365.

Newburg Electric Ry.—Walden & Orange Lake RR.—Newburg & Orange Lake RR.—Leases.—Regarding the rumors of the consolidation of the Newburg Electric and the Walden & Orange Lake companies, the CHRONICLE has this week been officially informed that the Walden & Orange Lake has been leased to the Newburg Electric for 50 years, and its \$100,000 of first mortgage bonds guaranteed principal and interest. The Newburg & Orange Lake road was leased to the Newburg Electric Sept. 4, 1894, for 50 years, and the interest only of its \$75,000 first mortgage bonds guaranteed. The information was received too late for publication in our February STREET RAILWAY SUPPLEMENT. Earnings for the eight months ending Jan. 31, 1895, are reported to the CHRONICLE as follows:

8 months end, Jan. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1895-96.....	\$71,092	\$39,453	\$20,333	\$10,011

New York New Haven & Hartford RR.—New England RR.—In the Massachusetts Legislature has been introduced a bill which, though somewhat disguised in form, is generally supposed to have for its object the obtaining of authority for a lease of the New England RR. to the New York New Haven & Hartford. It is pointed out that a lease would enable the New Haven road to sell the \$5,000,000 of New England consols owned by it at a very large advance in price and also to gain from the refunding at 4 per cent of the \$10,000,000 first mortgage bonds due in 1905, the saving in annual interest charge on which would be \$290,000.—V. 62, p. 320, 365.

New York & New Jersey Telephone.—Increase of Stock.—A special meeting will be held in Brooklyn on March 13 to approve an increase in the capital stock from \$3,500,000 to \$5,000,000.—V. 60, p. 562.

New York Pennsylvania & Ohio RR.—Erie RR.—Sold in Foreclosure.—At Akron, O., on Tuesday, the New York Pennsylvania & Ohio Railroad was purchased at foreclosure sale for \$10,000,000 by C. C. Mason of Cleveland and Roswell G. Rolston of New York, representing the bondholders. There was no opposition, the purchase being made pursuant to the plan by which the road will be merged in the Erie RR. Co. The sale was duly confirmed on Wednesday.—V. 62, p. 238, 365.

New York & Pennsylvania Telegraph & Telephone.—New Mortgage.—This company has filed a mortgage to the Atlantic Trust Co., as trustee, to secure \$300,000 5 per cent gold bonds due Feb. 1, 1925, interest F. & A., par value of bonds \$500 and \$1,000, with sinking fund beginning February, 1893.

Norfolk & Ocean View Ry.—Receiver Appointed.—Mr. O. Emmerson Smith has been appointed temporary receiver of this railway, which extends from Norfolk to Ocean View, Va., 8 miles.

Norfolk & Western RR.—Reorganization Plan.—The reorganization plan will probably be announced early in the coming week. We understand the new securities will include only three classes: a first consolidated 4 per cent mortgage for \$80,000,000, preferred stock \$25,000,000, and common stock \$66,000,000. Of the bonds about \$23,000,000 will be required to take up such securities as are disturbed under the plan and the balance are reserved for undisturbed bonds as they mature and for betterments, equipment, etc. The above-mentioned \$23,000,000 of bonds and a like amount of preferred stock will be used to adjust the disturbed bonds, viz.: Adjustment bonds; 100-year bonds, Maryland & Washington, Clinch Valley, Equipment, Roanoke & Southern and Lynchburg & Durham. The old common and preferred stock, on payment of an assessment of \$12 50 per share, will receive new common stock, the old common 75 per cent and the preferred 112 per cent. The assessment will be underwritten by a syndicate headed by Messrs. Brown, Shipley & Co., London.—V. 61, p. 1013.

Northern Pacific RR.—Consolidation of Receivership.—Late in the afternoon of Feb. 21 Judge Lacombe confirmed the appointment of Frank G. Bigelow and Edwin H. McHenry as receivers for the Second Judicial District in place of the Messrs. Oakes, Payne and Rouse, resigned. Similar action had been taken by the Judges of the other judicial districts, except that for the State of Washington, where Judges Hanford and Gilbert will act March 3.

The following notice has been sent out under date of Feb. 21 by Edwin H. McHenry and Frank G. Bigelow, receivers: Having been appointed receivers of the Northern Pacific Railroad Company by the United States Circuit Court of the Seventh, Eighth and Second Circuits, on September 24th, 1895, September 30th, 1895, and February 21st, 1896, respectively, we have taken possession of all of the property of the said railroad company in said circuits and have made the following appointments of heads of departments: J. W. Kendrick, General Manager; C. W. Bunn, General Counsel; John D. Spooner and Geo. P. Miller, Advisory Counsel; W. H. Phillips, Land Commissioner; John Scott, Comptroller; M. P. Martin, Auditor; C. A. Clark, Treasurer. R. H. Relf is appointed Secretary pro tem. at St. Paul, and Geo. H. Earl, Secretary pro tem. at New York.

Power to Pay Interest.—The New York News Bureau publishes the following statement from authoritative sources to show the ability of the company to earn interest on its bonds:

Total charges assumed by receivers, including interest on general first mortgage bonds, collateral trust bonds, receivers' certificates, sinking fund of general first mortgage, etc.	\$5,308,720
Second mortgage bonds' interest.....	1,152,960
Second mortgage sinking fund.....	247,940
Rentals.....	163,220
First mortgage bonds on branch roads about \$10,000,000 at interest to be reduced say to 2 per cent.....	800,000
New money required by the receivers to put property in order, \$4,000,000 cash, say \$10,000,000 at 4 per cent.....	400,000
Taxes.....	500,000
Fixed charges prior to third mortgage.....	\$8,571,910
Add third mortgage bonds, \$11,161,000—	
Interest.....	637,680
Sinking fund.....	114,610

Fixed charges, including third mortgage.....\$3,374,210
In view of the fact that the earnings of the Northern Pacific Railroad for 1894 were about \$1,100,000, and for 1895 were only about \$5,000,000, it would seem to be inevitable that in any reorganization the second mortgage bonds will have to concede a good deal, and the third mortgage bonds will also have to make very large concessions. The bonded indebtedness and other charges summarized above are only those which appertain to the properties from which the above earnings were derived. It will also be noticed that the sinking funds in the above calculation amount to about \$325,000. If the company were able to sell land, these sinking funds could be provided for out of the proceeds, but for some years past the sales of land have, we understand, been quite inadequate to provide for the sinking funds.—V. 62, p. 365.

North Side Electric St. Ry.—North Chicago Street RR.—The bonds of the North Side Electric Street Ry. are endorsed with the following guaranty:

For value received the North Chicago Street Railroad Company hereby guarantees the prompt payment, at maturity, of the principal and interest of the within bond.

Attest Secretary. Per President.
See advertisement on another page.—V. 62, p. 233.

Pennsylvania Railroad.—The following is the company's statement of earnings for the month of January:

LINES DIRECTLY OPERATED.

East of Pittsburg and Erie—	Increase.	\$315,500
Gross earnings		
Expenses	Increase.	253,100
Net earnings	Increase.	\$62,400

West of Pittsburg and Erie—	Increase.	\$225,100
Gross earnings		
Expenses	Increase.	218,500
Net earnings	Increase.	\$6,300

ALL LINES.

East of Pittsburg and Erie—	Increase.	\$426,700
Gross earnings		
Expenses	Increase.	427,400
Net earnings	Decrease.	\$700

West of Pittsburg and Erie—	Increase.	\$232,500
Gross earnings		
Expenses	Increase.	243,200
Net earnings	Decrease.	\$50,400

Attention is directed to the change made by the company in the form of its monthly statement for the better information of its shareholders and others interested in its securities. Heretofore the company included in its statement of lines east of Pittsburg and Erie only the figures of what are known as the three grand divisions, to wit, the Pennsylvania Railroad Division, the United Railroads of New Jersey Division and the Philadelphia & Erie Railroad Division, which it operates directly, while the figures given for the lines west of Pittsburg and Erie covered only those lines which are operated directly by the Pennsylvania Company and the Pittsburg Cincinnati Chicago & St. Louis Railway Company, and in the latter case revenue other than earnings from traffic was included. The form now adopted and hereafter to be used gives under the heading, "Pennsylvania Railroad (lines directly operated)" and "Lines West of Pittsburg (directly operated)" all the information heretofore given, and, in addition, figures covering the entire system east of Pittsburg & Erie, that is, including the Philadelphia Wilmington & Baltimore Railroad, Northern Central Railway and other important lines, while west of Pittsburg all lines are likewise covered, and no revenue but earnings from traffic is included therein.—V. 62, p. 233.

Pennsylvania Heat Light & Power—Edison Electric Light, Philadelphia.—Proposal to Purchase Stock.—A circular was issued to the stockholders of the latter company on Monday announcing the intention of the Pennsylvania Heat Light & Power Co. to purchase their stock, paying for each share \$50 in cash and \$100 in 5 per cent trust certificates. The capital of the Edison Company is \$2,000,000, each share being \$100 par, and the delivery is to be made after April 1st, the shareholders receiving 2 per cent dividend declared on that day. The shareholders are requested to signify assent before March 21st.—Vol. 62, p. 40.

Philadelphia & Reading.—The results of operations for January, and the first two months of the fiscal year, have been as follows:

	January.	1895.	Dec. 1 to Jan. 31.	1894-95.
RAILROAD COMPANY—				
Gross receipts	1,725,452	1,564,303	3,558,709	3,120,236

* Includes \$520,000 Car Trust Certificates matured during the years 1894 and 1895, not properly chargeable to the business of 1896. V. 62, p. 360.

Port Royal & Western Carolina RR.—Sale Confirmed.—On Tuesday Judge Simonton at Charleston confirmed the sale of the road to Messrs. Thomas and Ryan.—V. 62, p. 331.

Rio Grande Western Ry.—Semi Annual Statement.—The following statement for the six months ended December 31 has been officially verified:

	1895.	1894.	Increase.
Gross	\$1,349,023	\$1,145,291	\$203,731
Operating expenses	771,414	749,860	21,553
Net	\$574,603	\$395,431	\$179,177

Net earnings and surplus for six months ended Dec. 31, 1895, compared with same period 1892 to 1894, inclusive:

	<i>Net.</i>	<i>Surplus.</i>		<i>Net.</i>	<i>Surplus.</i>
1895.....	\$574,608	\$222,472	1893.....	\$439,196	\$99,096
1894.....	395,431	43,319	1892.....	526,354	195,697

Out of the surplus were declared dividends in 1891 of \$156,195 and in 1892 of \$153,303.—V. 61, p. 703.

Sattle Lake Shore & Eastern RR.—Reorganization.—The bondholders' committee has called a meeting of bondholders for March 25th to authorize such changes in the agreement of July, 1893, as may be necessary to protect the bondholders at the forthcoming sale of the property. Also to create, modify and amend the agreement of reorganization. The proposed plan provides (1) that two corporations shall be organized; one to acquire the properties of the company east of the Cascade Mountains and the other to acquire the property west of the Cascade Mountains. (2) The bonds and stocks of these proposed new corporations are to be held in trust for five years by three trustees, who shall nominate the directors from year to year. It is further provided as follows:

If during this trust period of five years any proposition shall be made looking to the purchase of the securities of either of the proposed new corporations the leasing of said corporations or the consolidation of them with other corporations, said proposition shall be submitted by the Trustees to the registered certificate holders at a meeting duly called for that purpose, and by the vote of 60 per cent in amount of said certificate holders said question shall be disposed of. Further, if during said trust period of five years the earnings of the proposed new companies shall warrant, in the estimation of the directors, the payment of any or all of the interest on the proposed new bonds, then in that event said interest shall be paid to the certificate holders. But if said interest shall not be earned, the coupons evidencing said interest shall be cut off and destroyed at the end of said trust period before the bonds are surrendered to their individual holders.

(3) It is proposed that the new bonds shall be 4 per cent gold bonds, and that the corporation east of the Cascade Mountains shall issue not over \$1,112,000 of said bonds, and the corporation west of the Cascade Mountains shall issue not over \$440,000 of said bonds. The stocks of these corporations shall be respectively not over \$300,000 for the eastern corporation and not over \$2,400,000 for the western corporation. The committee is Messrs. H. O. Armour, E. D. Christian, James D. Smith and Morton S. Paton.—V. 61, p. 1014.

Second Avenue RR. (N. Y. City).—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 have been reported as follows:

	3 months end, Dec. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895		\$218,798	\$41,408	\$625	\$33,151	\$9,083
1894		226,300	41,798	625	33,462	8,931
6 months—						
1895		\$434,719	\$129,881	\$1,250	\$72,767	\$58,344
1894		510,893	136,533	1,250	75,631	59,137

—V. 61, p. 872.

Second Avenue (Pittsburg) Traction.—McKeesport Duquesne & Wilmerding.—Referring to the publication in Pittsburg papers of the statement that the Second Avenue Traction Co. has purchased the McKeesport Duquesne & Wilmerding Road, the CHRONICLE is officially informed that these statements were given as items of news without any authority. It is true that negotiations have been pending for the acquisition of this property, but it does not contemplate guaranteeing either interest or principal on the present bonds.—V. 62, p. 279.

South Jersey RR.—New Branch.—The plan for building the Ocean City branch by issuing receivers' certificates has been abandoned. The new road is to be built by a separate company, the South Jersey guaranteeing the payment of interest. It is stipulated that trains will be running in to Ocean City by July 1 next.—Railroad Gazette.—V. 62, p. 336.

Twin City Rapid Transit.—The annual report of this company is omitted from the CHRONICLE to-day but will be published next week.

Union Pacific RR.—Coupon Payment.—Coupons of sinking fund 8 per cent extended to date, due March 2, 1896, will be paid on and after that date by the Union Trust Company of New York, Trustee, No. 90 Broadway, New York.—V. 62, p. 278.

United States Leather.—Dividends.—The directors met in New York this week but took no action upon a dividend. The annual report is given on another page.—V. 61, p. 737.

Wheeling & Lake Erie Railway.—Election.—At the annual meeting of stockholders in Toledo, Feb 13, directors were elected as follows: Washington E. Connor, A. G. Blair, John Greynough, Thomas L. Johnson, Frank R. Lawrence, Earl W. Oglebay, George E. Pomeroy, D. D. Parmly, S. C. Reynolds, Arthur W. Soper and M. L. Wilcox. The board was increased to eleven members, Messrs. Johnson, Parmly, Soper and Wilcox being the new members. The directors have been classified so that only a portion shall have their term of office expire each year. Mr. Blair, who has been General Manager, has been elected President.—V. 61, p. 1009.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, February 23, 1896.

The weather has continued wintry, but not as severely so as last week, and it seems probable that a good crop of ice has been secured. Congress in effect has indefinitely postponed action upon the tariff measure known as the Dingley Bill, and it may be two years before the subject will come up again at Washington. An effort is being made to adjust the differences that have for some time existed between the great trunk railways and consignees of Western products at this port to the great detriment, it is claimed, of the latter, and it is thought matters will be adjusted. Exports of food staples have been on a large scale. Reports begin already to be received of damage done by the breaking up of the ice in Western rivers. Diplomatic differences between the great powers now receive little attention, and have but small influence in commercial circles, but the proposition to recognize the belligerents in Cuba has met with such favor at Washington that it causes some uneasiness, especially in financial circles.

Lard on the spot has continued to meet with a very slow sale and with free offerings prices have again declined, closing easy at 5-55c. for prime Western, 4-90c. for prime City and 5-85c. for refined for the Continent. There has been no trading in the local market for lard futures, but nominal prices have been quoted lower in response to weaker advices from the West, where selling has been general, prompted by liberal receipts of swine at primary points, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES.

May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
5-55	5-85	5-82	5-80	5-75	5-70		

A limited amount of pork has been sold, but at lower prices, closing at \$10@10 50 for mess, \$10 50@11 for family and \$10 75@12 25 for short clear. Cutmeats have been quiet and with increased offerings prices have declined, closing at 4 1/4@5 1/2c. for pickled bellies, 12 to 10 lbs. average; 4 1/2c. for pickled shoulders and 8 1/4@8 3/4c. for pickled hams. Beef has been quiet and without change, closing at \$7 50@8 50 for mess, \$9@10 for packet, \$10@12 for family and \$14@17 50 for extra India mess in tierces. Beef hams have been steady at \$15 50@15 75. Tallow has been unchanged, closing with large sales for export at 8 1/2-16c. Lard stearine has been easier, closing at 6 1/4@6 1/2c. Oleo-stearine has sold moderately at lower prices, closing at 4 1/2c. Cotton seed oil has been steady with moderate sales to shippers, closing at 21c. for prime crude and 25@25 1/2c. for prime yellow. Butter has been moderately active and steady, closing at 14@22c. for creamery. Cheese has been in fair request and steady, closing at 6@10 1/2c. for State factory full cream. Fresh eggs have declined and the close was week at 10 1/4@11c. for choice Western.

Coffee has received slightly increased attention and holders' views have strengthened slightly. Rio quoted at 13 1/4c. for No 7. At the close a large business was transacted in mild grades at full values. Good Cutcuta quoted at 16c. and standard Java at 25@25 1/2c. The deal in contracts has been very moderate and changes in prices have been unimportant, though at the close there was an easier feeling, due to free offerings by local traders.

The following were the final asking prices:

March	June	Sept	Oct
12-55c.	11-70c.	10-95c.	10-95c.
April <th>July</th> <th>Oct</th> <th>Nov</th>	July	Oct	Nov
12-25c.	11-50c.	10-75c.	10-75c.
May <th>Aug.</th> <th>Nov</th> <th>Dec</th>	Aug.	Nov	Dec
12-00c.	11-15c.	10-75c.	10-75c.

Raw sugars have shown considerable strength and have found a quick sale at full market values. Centrifugals quoted at 4 1/2c. for 96-deg. test and muscovado at 3 1/2c. for 89-deg. test. Refined sugars have had only a limited call; granulated quoted at 5c. Teas have been dull and easy. Spices have shown a hardening tendency.

Kentucky tobacco has been in fair demand for export and prices have been firm. Sales 250 hhds. For seed leaf tobacco there was a quiet market, but prices ruled steady. Sales for the week were 1,095 cases, as follows: 170 cases 1894 crop, New England Havana, 8@16c.; 375 cases 1893 crop, New England Havana, 5@7 1/2c.; 200 cases 1894 crop, State Havana, 5@7 1/2c.; 100 cases 1892 crop, Pennsylvania seed leaf, 9@10c.; 100 cases 1893 crop, Pennsylvania Havana seed, 10 1/2@12 1/2c., and 150 cases sundries, 4@16c.; also 1,250 bales Havana, 70c.@\$1 10, and 300 bales Sumatra, 65c.@\$3 50 in bond.

There has been slightly more interest shown in the speculative market for Straits tin, and prices have advanced. At the close, however, part of the improvement was lost, and the close was easy at 13 1/4c. Ingot copper has been in good demand, and prices have continued to advance, closing firm at 11@11 1/2c. for Lake. Lead has been in fair request at advancing prices, closing firm at 3-22 1/2@3 25c. for domestic. Spelter has been quiet but steady at 4@4 1/2c. for domestic. Pig iron has been without change, closing steady at \$11 75@13 50 for domestic.

Refined petroleum has been steady, closing at 7-10c. in bbls., 4-60c. in bulk and 8c. in cases; crude in bbls. has been nominal; naphtha unchanged at 3-25c. Crude certificates have further declined, closing at \$1 35 1/2 bid. Spirits turpentine has been in better demand and steady at 29 1/4@29 1/2c. Rosins have been in fair request and firmer, closing at \$1 65@1 67 1/2 for common and good strained. Demand for wool has been quiet but prices have been firmly maintained. Hops have sold slowly and prices have been weak.

COTTON.

FRIDAY NIGHT, February 23, 1896.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 95,659 bales, against 109,395 bales last week and 106,446 bales the previous week, making the total receipts since the 1st of Sept., 1895, 4,460,211 bales, against 6,736,199 bales for the same period of 1894-5, showing a decrease since Sept. 1, 1895, of 2,275,988 bales.

 The imports into Continental ports the past week have been 125,000 bales.

The above figures indicate a decrease in the cotton inight-t-night of 1,010,841 bales as compared with the same date of 1895, a falling off of 609,342 bales from the corresponding date of 1894 and a decrease of 432,166 bales from 1893.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894-95—is set out in detail below.

TOWNS.				Receipts.		Shipments.		Receipts.		Shipments.		Stock

The above totals show that the interior stocks have decreased during the week 27,504 bales and are now 8,355 bales more than at same period last year. The receipts at all the towns are been 42,421 bales less than same week last year and since ent. 1 are 1,809,686 bales less than for same time in 1894-95.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Feb. 25		CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
		Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston ..		7 1 1/8	7 3/8	7 3/8	7 3/8	7 3/8	7 3/8

Louisville		7 3/8	7 3/8	7 3/8	7 3/8	7 3/8	7 3/8

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	7 ³ / ₈	Little Rock....	7 ¹ / ₄	Newberry.....
Columbus, Ga.	7 ¹ / ₄	Montgomery....	7 ³ / ₈	Raleigh.....	7 ³ / ₈
Columbus, Miss	7	Nashville.....	7 ¹ / ₂	Selma.....	7 ³ / ₈
Eufaula.....	7 ³ / ₈	Natchez.....	7 ³ / ₈	Shreveport....	7 ³ / ₈

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Sh'k at Interior Towns.			Rec'pts from Plant'ns.		
	1894.	1895.	1896.	1894.	1895.	1896.	1894.	1895.	1896.
Jan. 21.....	154,352	213,020	112,395	407,142	507,548	533,688	141,775	190,482	93,475
" 28.....	116,748	199,893	122,902	420,940	480,801	505,878	103,541	182,156	106,092
Feb. 7.....	100,650	155,098	113,580	390,917	466,453	470,143	81,537	131,750	88,554
" 14.....	71,627	132,980	100,446	376,769	442,289	458,279	57,473	108,825	85,582
" 21.....	82,891	91,507	109,395	363,821	420,290	438,487	69,049	69,787	89,603
" 28.....	62,358	107,940	95,650	347,040	402,728	410,983	51,077	120,390	78,155

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 4,832,494 bales; in 1894-95 were 7,081,593 bales; in 1893-94 were 5,507,602 bales.

2.—That although the receipts at the outports the past week were 95,659 bales, the actual movement from plantations was only 68,135 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 123,393 bales and for 1894 they were 51,077 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Feb. 28, and since Sept. 1 in the last two years are as follows.

February 28	1895-96.		1894-95.	
	Week.	Since Sept. 1	Week.	Since Sept. 1
Shipped—				
Via St. Louis	11,030	424,285	19,237	734,663
Via Cairo	5,577	196,674	8,297	277,108
Via Parker City	30	13,398	845	24,445
Via Evansville		60	5	2,899
Via Louisville	2,555	106,524	1,921	144,249
Via Cincinnati	2,773	68,365	3,419	127,635
Via other routes, &c.	1,341	72,792	4,994	121,578
Total gross overland	23,306	892,098	38,768	1,432,577
Deduct shipments—				
Overland to N. Y., Boston, &c.	5,054	194,740	24,245	362,273
Between interior towns		2,604	198	21,903
Inland, &c., from South.	1,559	34,987	1,952	52,918
Total to be deducted	6,661	232,331	27,395	437,093
Leaving total net overland*	16,645	649,767	11,373	995,484
* Including movement by rail to Canada				

The foregoing shows that the week's net overland movement this year has been 16,845 bales, against 11,873 bales for the week in 1895, and that for the season to date the aggregate net overland exhibits a falling off from a year ago of 345,717 bales.

<i>In Sight and Spinners' Takings.</i>	1895-96.		1894-95.	
	<i>Week.</i>	<i>Since Sept. 1.</i>	<i>Week.</i>	<i>Since Sept. 1.</i>
Receipts at ports to Feb. 28	95,659	4,460,211	137,940	6,736,199
Net overland to Feb. 28	16,540	1,000,007	17,373	995,484
Southern consumption to Feb. 28	18,000	516,000	15,000	454,000
Total marketed	130,304	5,625,978	164,313	8,185,683
Interior stocks in excess	27,504	378,283	17,541	345,393
Came into sight during week	102,800		146,772	
Total in sight Feb. 28		6,004,261		8,531,076
North'n spinners' tak'gs to Feb. 28	30,789	1,259,052	33,211	1,713,981

It will be seen by the above that there has come into sight during the week 102,810 bales, against 146,772 bales for the same week of 1895, and that the decrease in amount in sight to-night as compared with last year is 2 526,815 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening indicate that rain has been quite general at the South during the week, but that except in the Southwest the precipitation has been light. The temperature has been higher, and our Memphis correspondent reports the weather unseasonably warm the latter part of the week. In Texas farm work has been interfered with by rain, but elsewhere farmers have been able to make good progress in preparing their land for the coming crops.

Galveston, Texas.—The weather during the early part of the week was unfavorable for farming interests, all work being interrupted by continuous showers, which kept ground too wet for plowing. Much has been accomplished, however, during the latter portion of the week on sandy lands. We have had rain on four days during the week, the precipitation reaching one inch and thirty-nine hundredths. The thermometer has ranged from 55 to 65, averaging 60.

Palestine, Texas.—We have had heavy rain on three days during the past week, the rainfall being three inches and eighteen hundredths. Average thermometer 56, highest 72 and lowest 40.

Huntsville, Texas.—There has been rain on three days of the week, the rainfall reaching two inches and one hundredth. The thermometer has averaged 56, the highest being 72 and the lowest 40.

Dallas, Texas.—Rainfall for the week ninety-two hundredths of an inch on two days. The thermometer has averaged 53, ranging from 36 to 63.

San Antonio, Texas.—It has rained on four days of the week to the extent of one inch and twenty-five hundredths. The thermometer has ranged from 46 to 72, averaging 59.

Luling, Texas.—Rain has fallen on three days of the week, the rainfall reaching one inch and twenty hundredths. Average thermometer 60, highest 74, lowest 44.

Columbia, Texas.—We have had rain on three days of the week, the rainfall being one inch and eighty-one hundredths of an inch. The thermometer has averaged 60, the highest being 76, and the lowest 43.

Cuero, Texas.—There has been heavy rain on four days the past week, with rainfall of five inches and sixty-seven hundredths. The thermometer has averaged 63, ranging from 50 to 76.

Brenham, Texas.—We have had rain on four days during the week, the precipitation reaching two inches and twenty-nine hundredths. The thermometer has ranged from 46 to 73, averaging 60.

Bellton, Texas.—Rain has fallen on three days of the week, the rainfall reaching one inch and fifty hundredths. Average thermometer 50, highest 68 and lowest 33.

Fort Worth, Texas.—We have had rain on two days during the week, the precipitation being one inch and twenty-one hundredths. The thermometer has averaged 50, the highest being 66 and the lowest 34.

Weatherford, Texas.—There has been rain on two days the past week, with rainfall of one inch and thirty-one hundredths. The thermometer has averaged 50, ranging from 32 to 68.

New Orleans, Louisiana.—We have had rain on two days of the week, the rainfall being thirty hundredths of an inch. The thermometer has averaged 57.

Shreveport, Louisiana.—There has been rain on three days of the past week, the precipitation reaching one inch and nineteen hundredths. Average thermometer 54, highest 71 and lowest 33.

Columbus, Mississippi.—We have had rain on two days of the week, to the extent of sixty-eight hundredths of an inch. The thermometer has averaged 53, the highest being 70 and the lowest 18.

Leland, Mississippi.—Rainfall for the week seventy three hundredths of an inch. The thermometer has averaged 50.5, ranging from 24 to 73.

Vicksburg, Mississippi.—Rain has fallen on two days of the week, the rainfall reaching one inch and seventy-two hundredths. The thermometer has ranged from 28 to 69, averaging 52.

Little Rock, Arkansas.—It has rained on one day of the week, the rainfall reaching twelve hundredths of an inch. The thermometer has averaged 50, ranging from 25 to 73.

Helena, Arkansas.—Farmers are busy. There has been light rain on two days of the week, the precipitation being fifty-four hundredths of an inch. It is raining to day. The thermometer has ranged from 34 to 70, averaging 49.

Memphis, Tennessee.—Rain has fallen on one day of the week to the extent of fifteen hundredths of an inch, and it is raining now. The latter part of the week has been unseasonably warm. Average thermometer 45.6, highest 70.9 and lowest 17.5.

Nashville, Tennessee.—There has been rain during the week to the extent of three inches. The thermometer has averaged 44, the highest being 74 and the lowest 9.

Mobile, Alabama.—Weather has been favorable for farm work. There has been rain on three days of the week, the rainfall reaching twenty-seven hundredths of an inch. The thermometer has averaged 53, the highest being 69 and the lowest 32.

Montgomery, Alabama.—With the exception of one shower, the weather during the week has been cool and dry, and very good progress has been made in preparing lands for planting. The rainfall reached four hundredths of an inch. The thermometer has averaged 47, ranging from 36 to 59.

Selma, Alabama.—Rain has fallen on three days of the week, to the extent of eighteen hundredths of an inch. The thermometer has ranged from 26 to 63, averaging 46.

Madison, Florida.—Takings of fertilizers have largely increased, and a large addition to cotton acreage is indicated. Rain has fallen on one day of the week to the extent of sixty hundredths of an inch. Average thermometer 54, highest 67 and lowest 30.

Savannah, Georgia.—We have had no rain all the week. The thermometer has averaged 49, ranging from 21 to 75.

Columbus, Georgia.—We have had rain on one day of the week, the precipitation being seventy-two hundredths of an inch. The thermometer has averaged 45, the highest being 66 and the lowest 18.

Augusta, Georgia.—It has rained on one day of the week, to the extent of six hundredths of an inch. The thermometer has ranged from 15 to 74, averaging 46.

Charleston, South Carolina.—There has been rain on one day during the week to the extent of one hundredth of an inch. The thermometer has averaged 47, the highest being 66 and the lowest 18.

Stateburg, South Carolina.—We had light rain on Monday, the precipitation being twelve hundredths of an inch. The thermometer has averaged 45.2, ranging from 13 to 72.

Greenwood, South Carolina.—There has been rain on two days of the week, the precipitation being thirty-six hundredths of an inch. The thermometer has ranged from 20 to 68, averaging 39.

Wilson, North Carolina.—Dry weather has prevailed all the week. There has been a large increased sale of fertilizers, but mainly for use on tobacco lands. Average thermometer 41, highest 60, lowest 12.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock February 27, 1896, and February 28, 1895.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Feb. 27.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n	Continent.	Total.	Great Britain	Continent.	Total.	This Week.	Since Sept. 1.
'95-6	43,000	43,000	86,000	24,000	300,000	324,000	69,000	1,036,000
'94-5	38,000	38,000	76,000	2,000	81,000	83,000	32,000	438,000
'93-4	38,000	38,000	76,000	20,000	259,000	279,000	71,000	748,000
'92-3	1,000	19,000	20,000	10,000	230,000	240,000	43,000	550,000

Year	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1895-96...	3,000	13,000	16,000
1894-95...	5,000	9,000	14,000
Madras—						
1895-96...	1,000	1,000	18,000	13,000	31,000
1894-95...	13,000	10,000	23,000
All others—						
1895-96...	1,000	1,000	20,000	30,000	50,000
1894-95...	2,000	1,000	3,000	14,000	27,000	41,000
Total all—						
1895-96...	1,000	1,000	2,000	41,000	56,000	97,000
1894-95...	2,000	1,000	3,000	32,000	46,000	78,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales less than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895-96.		1894-95.		1893-94.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	43,000	324,000	83,000	38,000	279,000
All other ports	2,000	87,000	3,000	78,000	2,000	105,000
Total	45,000	421,000	3,000	161,000	40,000	384,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, February 26.		1895-96.		1894-95.		1893-94.	
Receipts (cantars*)		This week.		This week.		This week.	
This week		85,000		100,000		125,000	
Since Sept. 1.		4,766,000		4,170,000		4,181,000	
		This week.		This week.		This week.	
		Sept. 1.		Sept. 1.		Sept. 1.	
Exports (bales)—							
To Liverpool		5,000		7,000		12,000	
To Continent		9,000		5,000		4,000	
Total Europe		14,000		12,000		16,000	

* A cantar is 93 pounds.
† Of which to America in 1895-96, 43,591 bales; in 1894-95, 23,624 bales; in 1893-94, 10,899 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

		1896.				1895.			
		32s. Cop.		8 1/4 lbs. Shirts, common to finest.		32s. Cop.		8 1/4 lbs. Shirts, common to finest.

NEW YORK COTTON EXCHANGE—CLEARING HOUSE.—The plan for a Clearing House adopting by the Exchange on January 29 will go into effect on Thursday, March 5.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (February 23) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894-95, are as follows.

		1895-96.		1894-95.		Stock.	
Receipts to Feb. 23.		This week.	Since Sept. 1.	This week.	Since Sept. 1.	1896.	1895.
Savannah		442	71,475	535	63,072	13,143	4,455
Charleston, &c.		118	10,177	5	5,103	2,524	495
Florida, &c.		—	4,793	—	5,139	1,779	1,899
Total		560	86,445	540	73,914	17,446	6,849

The exports for the week ending this evening reach a total of 769 bales, of which 634 bales were to Great Britain, 135 to France and — to Reval, and the amount forwarded to Northern mills has been 721 bales. Below are the exports for the week and since September 1 in 1895-96 and 1894-95.

		Week Ending Feb. 23.			Since Sept. 1, 1895.			North'n Mills.		
Exports from—		Great Brit'n.	France &c.	Total.	Great Brit'n.	France &c.	Total.	Week.	Since Sept. 1.	
Savannah, &c.		—	—	—	11,648	2,366	14,014	721	27,651	
Charleston, &c.		—	—	—	2,921	64	2,985	—	1,374	
Florida, &c.		—	—	—	—	—	—	—	3,608	
New York		135	135	135	12,557	3,353	15,910	—	—	
Boston		305	305	305	1,890	—	1,890	—	—	
Baltimore		329	329	329	1,942	—	1,942	—	—	
Total		634	135	769	30,958	5,783	36,741	721	32,633	
Total 1894-5		1,088	99	1,187	30,403	4,641	35,044	427	33,320	

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Feb. 23 at Savannah, for Floridas, common, 13c.; medium fine, 15c.; choice, 17 1/2c.
Charleston, Carolinas, medium fine, 22c.; fine, 24 to 25c.; fully fine, 26c.; extra fine, 30 to 33c.

JUTE BUTTS, BAGGING, &c.—There is no demand for jute bagging at present, but quotations are nominally unchanged at 3 1/2c. for 1 1/2 lbs., 4 1/2c. for 2 lbs. and 4 3/4c. for standard grades. Car-load lots of standard brands are quoted at 3 1/2c. for 1 1/2 lbs., 4 1/2c. for 2 lbs. and 4 3/4c. for 2 1/2 lbs. f. o. b. at New York. Jute butts have been neglected but nominal: quotations are 1 1/2c. for paper quality and 1 1/2c. for mixing.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 111,033 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

		Total bales
NEW YORK	To Liverpool, per steamer Georgia, 12,000	12,000
	To Hull, per steamer Francisco, 4,381	4,381

BREADSTUFFS.

FRIDAY, February 23, 1896.

Despite a firmer tone to the market for wheat, business in the market for wheat flour has been quiet, as buyers have been indifferent operators; for the better grades of winter-wheat flour and spring patents, however, holders have been indifferent sellers, and prices have been well maintained. City mills have been quiet but steady. Rye and buckwheat flour have sold slowly but prices have ruled steady. Corn meal has been in fair request at steady prices. To-day the market for wheat flour was fairly active, as both the home trade and shippers were buying, and at the close holders were asking higher prices.

The speculative dealings in the market for wheat futures have been fairly active, and prices have advanced rather sharply, on renewed buying for investment and also by "shorts" to cover contracts, stimulated by a revival of the export demand due to continued unfavorable crop advices from Argentine. Advices from the West, particularly the central section, report the condition of the growing crop as poor, and this also added to the strength of the situation. In the spot market shippers have been large buyers, their purchases amounting to about 800,000 bushels, and it was rumored that about 750,000 bushels additional were sold to be shipped at the opening of navigation. The sales yesterday included No. 1 hard spring at 4c. over May f.o.b. from store and 5c. over May f.o.b. afloat. No. 2 red winter was quoted nominally at 11c. over May f.o.b. afloat. To-day the market was fairly active and higher on general buying, stimulated by stronger foreign advices, accompanied by buying orders. At the close, however, realizing sales by "longs" caused some of the improvement to be lost. The spot market was firm but quiet. The sales included No. 2 hard Manitoba at about 2½c. over May f.o.b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
March delivery.....c.	73½	73½	73½	74½	75½	75½
May delivery.....c.	72½	73½	73½	73½	73½	74
June delivery.....c.	71½	73½	73½	73½	73½	73½
July delivery.....c.	71½	73½	73½	73½	73½	73½

The market for Indian corn futures has not attracted any particular attention. Speculation has been quiet but the advance in wheat stimulated a demand from a few "shorts" to cover contracts, and prices have made fractional advances. In the spot market business has been quiet, but offerings have been light, owing to small supplies, and prices have advanced. The sales yesterday included No. 2 mixed at about 2½c. over May f. o. b. afloat, steamer white at 40c. delivered, and No. 2 white at 40½c. f. o. b. afloat. To-day the market was a trifle higher in sympathy with the advance in wheat. A limited amount of business was transacted in the spot market at firm prices. The sales included old No. 2 mixed at 40c. delivered; steamer mixed at 37c. in elevator; steamer yellow at 37½c. in elevator; No. 2 yellow at 35c. in elevator; steamer white at 37½c. in elevator and No. 2 white at 41½c. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February delivery.....c.	37½	37½	37	37	37	37½
May delivery.....c.	36½	37	36½	36½	36½	36½
June delivery.....c.	37	37½	37	37	37	37½
July delivery.....c.	37½	37½	37½	37½	37½	37½

Oats for future delivery have been extremely dull, but prices have advanced slightly on reports of an export demand, and in sympathy with the improvement in other grains. In the spot market business has been fairly active, as shippers have been buying. The sales yesterday included No. 2 mixed at 26½c. in elevator and 27½c. f. o. b. afloat; also No. 2 white at 27½c. in elevator. To-day the market was firm but quiet. The spot market was fairly active, as shippers continued buyers, and prices advanced slightly. The sales included No. 2 mixed at 26½c. in elevator and No. 2 white at 27½c. in elevator and 29½c. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., February 28, 1896.

The attendance of out-of-town buyers during the week has been large, but they have nearly all been representatives of retail and small jobbing concerns, and the primary market has benefited but little from their presence. Results on the spot at first hands have thus been disappointing again and orders coming through the mails have not gone far to make amends for this. There have been some sales of staple cottons reported of fair volume, it is true, but these have been the result of some exceptionally low prices, evoking occasional orders from large buyers, and not an expression of more confidence on the part of the trade at large. The present condition of the cotton goods market is undisguisedly discouraging on all staple lines. Reductions in prices have failed to stimulate general buying, even though they have carried values down below cost of production in some instances, and stocks are still accumulating. Curtailment of production is being seriously considered by some large manufacturing concerns, and it is likely that the coming week will see some practical outcome of this. The woolen goods market and industry are also in an unsatisfactory condition, business is slow and prices weak in men's-wear fabrics, and short-time has been adopted by some leading mills.

WOOLEN GOODS—The market for all descriptions of men's-wear woollens and worsteds has been dull throughout the week. Only a limited number of new orders have come to hand in any description and cancellations have again been a feature. Cheapened fabrics in the shape of new goods at low prices keep the market in an unsettled condition, and prices are irregular in both staple lines and fancies; medium grade fabrics show this most prominently. There is an indifferent business passing in overcoatings, in which prices are irregular also, but cloakings are in improved request in new fall goods. Dress goods are in quiet reorder demand and fairly ordered in new lines for the fall season. Blankets are quiet in new season goods and flannels dull, but prices are steady.

DOMESTIC COTTON GOODS—The exports of cotton goods from the port for the week ending February 24 were 3,006 packages, valued at \$142,846, their destination being to the points specified in the tables below:

NEW YORK TO FEB. 24.

NEW YORK TO FEB. 24.		1898.		1895.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain.....	254	90	551	
Other European.....	8	1,001	32	250	
China.....	50	11,101	2,593	6,188	
India.....	110	2,086	1	419	
Arabia.....	1,171	1,871	3,828	
Africa.....	136	2,157	2,062

China, via Vancouver*..	2,532	1,000	
Total.....	3,006	33,289	3,347	28,962	

* From New England mill points direct.

The value of the New York exports for the year has been \$1,425,442 in 1896 against \$1,269,372 in 1895.

The chief feature in staple cottons has been the reduction of Lawrence L. L. 4-yard brown sheetings to 4½¢ per yard, and its effect on other goods. Some fair-sized sales have been made on this low basis, but the general demand for sheetings and drills in other weights has been indifferent from both the home and export trades. Prices continue weak and irregular in sheetings, drills, ducks and osenaburgs. Denims are also weak, with pressure to sell in some quarters, and in other coarse colored cottons buyers are operating indifferently, although the market is all in their favor. Sales of bleached cottons are moderate and prices without actual improvement, although an occasional advance of ¼¢ has been made by agents who two weeks ago committed themselves to such action. Wide sheeting have been in better request on basis of reduced prices noted last week. Cotton flannels and blankets quiet. Kid-finished cambrics inactive and weak. Prints, fancies and other regular makes have sold quietly at recent reductions. Fine specialties in steady request for moderate quantities. Ginghams of all descriptions slow and irregular in price. Print cloths have been neglected, extras nominally unchanged at 2½¢ at Fall River and 2 11-16¢ in outside markets.

Stock of Print Cloths—	1896.	1895.	1894.	1893.
At Providence, 64 squares.....	203,000	94,000	179,000	None.
At Fall River, 64 squares.....	481,000	31,000	289,000	None.
At Fall River, odd sizes.....	355,000	94,000	57,000	None.

Total stock (pieces).....1,071,000 219,900 525,000 None.

FOREIGN DRY GOODS—A fair general business has been done in seasonable merchandise by jobbers, but trade at first hands has been indifferent and prices irregular. Fall business has progressed quietly without special feature.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 27, 1896, and since January 1, 1896, and for the corresponding periods of last year are as follows:

Imports entered for consumption for the week and since January 1, 1896 and 1895.	Week ending Feb. 27, 1896.	Since Jan. 1, 1896.	Week ending Feb. 27, 1895.	Since Jan. 1, 1895.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished without extra charge to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished without extra charge to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished without extra charge to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished without extra charge to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising.—Per inch space.)

One time.....	\$3 50	Three Months (13 times).....	\$25 00
One Month (4 times).....	11 00	Six months (26 times).....	43 00
Two Months (8 times).....	18 00	Twelve Months (52 times).....	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopaedia of information respecting Municipal Debts.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Beatrice, Neb.—Bond Election.—A vote will soon be taken on issuing \$10,000 of electric-light bonds.

Belleveue, Ohio.—Bonds Authorized.—Water-works bonds of this municipality to the amount of \$30,000 have been authorized.

Buffalo, N. Y.—Bond Offering.—Proposals will be received until 12 o'clock noon, March 7, 1896, by Erastus C. Knight, City Comptroller, for the purchase of \$50,000 of registered refunding bonds of the city of Buffalo. The securities will be dated January 1, 1896, will bear interest at the rate of 3½ per cent, payable semi-annually on January 1 and July 1, and the principal will mature in 20 years, both principal and interest to be payable at the office of the City Comptroller, or at the Gallatin National Bank, New York, as the purchaser may desire. Proposals must state the price per one hundred dollars; also at which place it is desired to have the bonds made payable. They will be ready for delivery March 11, 1896.

The bonded debt of Buffalo on the first day of January, 1896, less bonds held by the city in sinking funds, was \$11,972,849 62. The assessed valuation of the taxable real estate of the city by the rolls of the year 1895 were \$220,064,300.

Camden, N. J.—No Bids Received.—It is reported that no bids were received on Feb. 24, 1896, for the purchase of \$75,000 of 3½ per cent public park bonds. The securities are dated January 1, 1896, interest is payable semi-annually on January 1 and July 1, and the principal will mature December 31, 1920.

Canton, Ohio.—Bond Sale.—On February 24, 1896, the city of Canton sold \$80,000 of refunding bonds to Dietz, Denison & Prior, of Cleveland, O., for \$81,869, the loan to bear interest at the rate of 4½ per cent. The securities are dated December 21, 1895; interest is paid semi-annually on June 21 and December 21, and \$12,000 of the principal will mature in five years, \$12,000 in eight years, \$12,000 in eleven years, \$12,000 in thirteen years and \$12,000 in fifteen years. A list of the bids received is given below:

	Amount Bid.
Dietz, Denison & Prior, Cleveland, O., for 4½% bonds.....	\$61,869
Street, Wykes & Co., New York City, for 4½% bonds.....	81,800
Spitzer & Co., Toledo, Ohio, for 4½% bonds.....	60,000
J. W. Longstreet & Co., Boston, Mass., for 4½% bonds.....	60,702
for 5% bonds.....	83,162
W. J. Hayes & Sons, Cleveland, Ohio, for 5% bonds.....	63,000
Seasonood & Mayer, Cincinnati, Ohio, for 5% bonds.....	62,800
S. A. Keen, Chicago, Illinois, for 5% bonds.....	60,750

Carroll County, Mo.—The people of this county will vote April 14 on the question of issuing 20-year bonds for \$75,000.

Castleton Union Free School District No. 3, N. Y.—Bids Received.—Below is a list of the bids which were received on February 27, 1896, for the purchase of \$75,000 of 5 per cent school building bonds:

	Bid.
E. C. Stanwood & Co.....	111-819
D. A. Moran & Co.....	109-896
Staten Island Savings Bank.....	109-25
E. Morrison.....	109-125
Geo. M. Hahn.....	109-07
Storrs & Smith.....	108-83
E. D. Shepard & Co.....	108-75
Farson, Leach & Co.....	108-39
I. W. Sherrill.....	108-25
C. G. Phillips.....	104-17
Walter Stanton & Co.....	108-07
Z. I. Quintard.....	107-79
Whann & Schlesinger.....	107-44
B. Underhill, Jr.....	107-37
N. Y. Security & Trust Co.....	107-11
J. & W. Selzman.....	107-04
Street, Wykes & Co.....	106-61
Benwell & Everitt.....	106-253
N. W. Harris & Co.....	105-48
Ed. C. Jones Co.....	105-087

The securities will be dated May 1, 1896, interest will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of \$3,000 yearly, payable January first of each year from the date of the bonds.

A protest against the issue signed by a number of taxpayers in the district was presented and tabled, as the board refused to listen to the reading of it.

Cass County, Ind.—Bond Sale.—Cass County has sold \$40,000 of 6 per cent funding bonds to Daitz, Denison & Prior, of Boston and Cleveland, at 106-40 and accrued interest. The securities are dated February 3, 1896, and \$30,000 of the amount will mature February 3, 1900, and \$20,000 on February 3, 1901. Three other bids were received for the loan as follows:

Mason, Lewis & Co., Chicago.....	106-28
Farson, Leach & Co., Chicago.....	105-72
N. W. Harris & Co., Chicago.....	105-70

The assessed valuation of the county is \$20,108,010 and its total debt is \$133,825 79.

Charles City, Iowa.—Bond Election.—The citizens of Charles City will vote on March 2 on the proposition to issue \$10,000 of additional water-works bonds, to be issued for the purpose of making a proposed extension. The securities are to bear 4½ or 5 per cent and to run 10 or 20 years. City Treasurer D. E. Moore writes the CHRONICLE that the bonds will all be taken at home if authorized.

Chaska, Minn.—Bond Offering.—Proposals will be received until March 7, 1896, by W. D. Kosbach, city clerk, for the purchase of \$3,500 of 5 per cent funding bonds, maturing in four years, with interest payable annually, and \$6,500 of 5 per cent bridge bonds, \$500 of the amount maturing on February 15, 1900, and \$1,000 yearly thereafter until paid.

The city's assessed valuation for 1895 was \$208,000.

Columbus, Ohio.—Bonds Proposed.—This city has petitioned the Legislature for authority to issue \$1,500,000 of bonds for electric-light purposes.

Defiance, Ohio.—Bond Election.—A vote will soon be taken on issuing \$30,000 of electric-light bonds.

Dublin, Ga.—Bond Offering.—Six per cent 30-year bonds to the amount of \$25,000 were voted by this city on January 11th, and the securities have recently been offered for sale.

Escanaba, Mich.—Bonds Authorized.—An election held February 6 on issuing \$50,000 of water-works bonds resulted in favor of the proposition.

Enfautia, Ala.—Bonds Authorized.—This city will issue bonds to the amount of \$75,000 for water-works, sewerage and an electric-light plant.

Fairfield, Neb.—Bonds Defeated.—On February 18 the people of Fairfield, Neb., defeated a proposition to bond for water-works by a majority of 30.

Fall River, Mass.—Bond Offering.—City Treasurer Charles P. Brightman will receive proposals until 12 M. of March 3 for the purchase of 4 per cent municipal bonds to the amount of \$102,000. The securities will be dated March 1, 1896, interest will be payable semi-annually on March 1 and September 1, and the principal will mature March 1, 1906. The loan is to be secured by a sinking fund.

The official notice of this sale will be found elsewhere in this Department.

Findley, Ohio.—Bonds Authorized.—School bonds to the amount of \$30,000 will be issued.

Galva, Iowa.—Bonds Authorized.—Water-works bonds of this municipality to the amount of \$4,000 have been voted.

Greenville, Miss.—Bond Sale.—It is reported that 6 per cent twenty-year water-works bonds of Greenville to the amount of \$55,000 have been sold.

Hastings, Neb.—Bond Election.—It is reported that an election will be held on issuing \$15,000 of electric light bonds and \$10,000 of water-works improvement bonds.

Helena, Montana.—Bond Offering.—The sale of 5 per cent 7-20 year funding bonds of Helena to the amount of \$113,000 and refunding bonds to the amount of \$161,500 has been postponed to March 18 at 2 P. M. The securities were first offered on January 2.

Hollidaysburg, Pa.—Bonds Authorized.—Electric-light bonds of this municipality to the amount of \$12,000 will be issued.

Honea Path, S. C.—Bond Election.—It is reported that an election will be held on issuing \$8,000 of court-house bonds.

Honey Brook, Pa.—Bonds Voted.—A vote taken February 18 on issuing \$15,000 of water-works bonds resulted in favor of the proposition.

Jamaica Union Free School, District No. 8, N. Y.—Bond Offering.—Proposals will be received until 4 o'clock P. M. at the President's office, Richmond Hill, L. I., or until 8 P. M. at the Johnson Avenue schoolhouse, Richmond Hill, L. I., on March 16, 1896, by Joel Fowler, President of the Board of Education, for the purchase of \$18,000 of 4 per cent school bonds. The loan will be dated April 1, 1896, interest will be payable semi-annually on April 1 and October 1, and the principal will mature at the rate of \$3,000 yearly from April 1, 1919, to April 1, 1926. The bonds will be coupon or registered, as the purchaser may prefer, both principal and interest to be payable in gold.

Kentucky—Loan Authorized.—A loan of \$500,000 has been authorized to meet urgent public indebtedness. The money will be borrowed from time to time as needed, and will bear interest at a rate not exceeding 6 per cent.

London, Ohio.—Bond Sale.—On February 21, 1896, this city sold \$5,000 of 6 per cent 12 to 16 year electric-light bonds to the Lamprecht Bros. Company, of Cleveland, for a premium of \$650. Two other bids were received, one from the Madison National Bank, London, Ohio, offering a premium of \$630 and one from Seasingood & Meyer, offering a premium of \$520.

Lynn, Mass.—Loans Proposed.—This city will petition the Legislature for authority to borrow, in excess of the debt limit, \$25,000 for an engine house in Ward 5, \$75,000 for drainage purposes, \$15,000 for an engine house in Ward 6 and \$25,000 for the abatement of the Butman mill nuisance.

Milwaukee, Wis.—Bond Offering.—Proposals will be received until March 31, at 10 A. M., by City Comptroller W. J. Fubrantz, for the purchase of 5 per cent bridge bonds for \$75,000. Interest will be payable semi-annually on January 1 and July 1, and the principal will mature part yearly in from one to twenty years.

Monroe County, Wis.—Bond Sale.—On February 20th \$25,000 of 5 per cent court-house bonds, maturing from 1900 to 1903 were awarded to the First National Bank of Portage, Wis., which offered a premium of \$240 and the bank bonds. Other bids for the loan were as follows:

	Premium.
Mason, Lewis & Co., Chicago.....	\$267
Mill & Blanchard, Boston.....	237
Spitzer & Co., Toledo.....	234
S. A. Kean, Chicago.....	125
W. J. Hayes & Sons, Cleveland.....	170
Dietz, Denison & Prior, Cleveland.....	185
Farson, Leach & Co., Chicago.....	231
C. H. White & Co., New York.....	243

Mount Ayr, Ia.—Bond Election.—A vote will be taken March 2, 1896, on issuing \$12,000 of water-works bonds.

Newberry, S. C.—Bonds Proposed.—This city will petition the Legislature for authority to hold an election on issuing \$25,000 of water-works bonds.

North Tonawanda, N. Y.—Bonds Proposed.—Water-works bonds to the amount of \$100,000 are under consideration.

Oakland, Md.—Bonds Proposed.—An ordinance providing for the issuance of bonds for water-works will probably be submitted to the Legislature.

Peekskill, N. Y.—Bonds Proposed.—Water-works improvement bonds of Peekskill to the amount of \$60,000 have been proposed.

Portland, Me.—Bond Sale.—The bid is opened on Feb. 26 for the city of Portland twenty-year gold four per cent bonds were as follows:

Name.	Bid
Blodget, Merrill & Co., Boston.....	\$107-273
George A. Fernald & Co., Boston.....	105-70
E. C. Stanwood & Co., Boston.....	106-549
R. L. Day & Co., Boston.....	107-819
E. H. Rollins & Sons, Boston.....	106-34
James W. Longstreet & Co., Boston.....	103-57
Edward H. Whitman, Boston.....	105-34
Estabrook & Co., Boston.....	1-7-171
Dietz, Denison & Prior, Boston.....	105-11
Blake Bros & Co., Boston.....	1-0-167
N. W. Harris & Co., Boston.....	108-19
C. H. White & Co., New York.....	105-35
Walter Stanton & Co., New York.....	106-39
C. C. Phillips, New York.....	106-375
Farson, Leach & Co., New York.....	106-7
Street, Wykes & Co., New York.....	102-633
W. I. Quintard, New York.....	106-39
Greenwich Savings Bank, New York.....	107-42
Woodbury & Moulton, Portland.....	107-81
Swan & Barrett, Portland.....	105-89
Portland Trust Co., Portland.....	106-267
Maine Savings Bank, Portland.....	103-315
Norton, Chapman & Co., Portland.....	(average) 101-00
A. B. Weeks, Rockland, Me.....	103-30

N. W. Harris & Co., being the highest bidders, were awarded the whole issue.

The securities will be dated March 1, 1893, and interest will be payable semi-annually on March 1 and September 1 at Boston or Portland, the bonds to be payable in gold March 1, 1916.

Portland, Mich.—Bond Election.—A vote will be taken next month on issuing \$10,000 of electric-light bonds.

Port Washington, N. Y.—Bond Election.—A vote will be taken April 7 on issuing road bonds.

Princeton Mo.—Bond Election.—The people of Princeton will vote March 8 on issuing \$16,000 of water-works bonds.

Reading Pa.—Bonds Voted.—It is reported that an election held February 18 on issuing \$600,000 of paving and sewer bonds resulted in favor of the proposition.

St. Croix County, Wis.—Bonds Proposed.—It is proposed to issue \$65,000 of county bonds for an insane asylum, and it is reported that a majority of the county supervisors are in favor of the step.

St. Louis County, Minn.—A special election will be held in St. Louis County on March 10th to vote on the question of issuing 4 per cent 20-year county road bonds for \$150,000.

Sanford, Fla.—Bond Offering.—Proposals will be received at any time before April 1, 1896, by the Bond Trustees for the purchase of 45 \$1,000 6 per cent bonds, with the understanding that no more than ten bonds are to be converted into cash at any one time, and that the cash thus received must be expended before another delivery of bonds. The securities are dated January 1, 1896, interest is payable semi-annually on January 1 and July 1, and the principal will mature in 20 years, both principal and interest to be payable at the National Park Bank, New York City. Two thousand dollars of the bonds are issued for lighting streets, \$3,000 to pay outstanding warrants, \$13,000 for school purposes and \$32,000 for grading and paving streets.

The city has at present no bonded indebtedness, and its assessed valuation for 1895 was \$616,340 39; actual valuation \$1,500,000. The population in 1895, according to local figures, was 2,165.

Schoolcraft, Mich.—Bond Election.—A vote will be taken next month on issuing \$10,000 of water-works bonds.

Sea Cliff, N. Y.—Bond Election.—A vote will probably be taken on issuing \$20,000 of road bonds.

Sharon, Wis.—Bond Offering.—In about two weeks Sharon water-works bonds to the amount of \$14,000 will be offered for sale. The securities will bear 5 per cent interest, payable annually, and the principal will mature at the rate of \$1,000 yearly, beginning with February 15, 1898.

Sharpsville, Pa.—Vote not Taken.—An election was to have been held February 18, 1896, on issuing \$35,000 of water-works bonds, but it is reported that through some misunderstanding the vote was not taken.

Springdale Irrigation District, Neb.—Bonds Voted.—It is reported that the people of this district have voted to issue bonds for \$48,000.

Tampa, Fla.—Bond Sale.—It is reported that Tampa has sold \$300,000 of paving and sewer bonds.

Tulare County, Cal.—Bond Sale.—It is reported that \$32,000 of court-house bonds have recently been sold.

Tunkhannock, Pa.—Bonds Voted.—A vote taken Feb. 18 on issuing sewerage bonds resulted in favor of the proposition.

Utica, N. Y.—Bond Offering.—J. A. Cantwell, City Clerk, will sell at public auction at 12 o'clock, March 5, 1896, paving bonds of the city of Utica to the amount of \$41,405 41. The securities will be dated February 19, 1896, will bear interest at the rate of 4 per cent, payable annually, and will mature part yearly in from one to six years.

The city's debt at present consists of \$23,000 of public improvement bonds, \$200,000 of railroad bonds and \$90,040 62 of local assessment bonds. The assessed valuation for 1895 of real estate was \$16,548,046; personal property, \$2,630,263; total, \$19,178,309. The population at present is estimated at 50,000.

Waddington, N. Y.—Bonds Proposed.—This village has petitioned the Legislature for authority to issue water-works bonds.

Warren, Pa.—Bonds Voted.—An election held February 18 on issuing \$100,000 of water-works bonds resulted in favor of the proposition. The particulars of the loan will not be decided upon for some time.

West Chicago, Ill.—Bids Rejected.—None of the bids received on February 18, 1896, for the purchase of \$600,000 of 5 per cent park bonds were considered satisfactory and the loan will now be disposed of in lots of \$300,000 each. It is proposed to advertise the first lot at once, to be delivered in sixty days from date of sale, the second lot to be sold sixty days after the sale of the first lot and the third lot 120 days after the first sale. A list of the bids received last week was given in the CHRONICLE of February 22, page 330. Interest on the bonds will be payable semi-annually and the principal will mature July 1, 1915, with an option of call after July 1, 1900. Principal and interest will be payable at the office of the West Chicago Park Commissioners.

Wilmerding, Pa.—Bonds Voted.—C. C. Cowell, Borough Clerk, reports to the CHRONICLE that an election held February 18, 1896, on issuing \$33,000 of street improvement bonds, resulted in favor of the proposition. The details of the loan have not as yet been decided upon.

The present debt of the borough is \$102,000. Its assessed valuation for 1895 of real estate was \$1,750,000; personal property, \$125,000; total, \$1,875,000; total tax (per \$1,000), \$15 35. The present population, according to local figures, is from 3,000 to 3,500.

Wilmington, Del.—Bonds Voted.—It is reported that this city will issue \$125,000 of paving and sewer bonds.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Auburn, N. Y.—Orlando Lewis, Mayor. The following statement has been corrected to date by means of a special report from City Treasurer J. P. Jaecel.

This city is the capital of Cayuga County. In 1894 the city purchased the plant of the Auburn W. W. Co. for \$425,000. At the same time the city assumed the water company's bonds to the amount of \$112,000, which were refunded in June 1895.

LOANS—		When Due.	Southern Central RR.—(Con.)
38, A.O., \$1,000.	Oct. 1, 1896	38, M.S., \$20,000.	Mar. 1, 1904
38, Southern Central RR.—		38, M.S., 20,000.	Mar. 1, 1905

38, M.S., 30,000.	Mar. 1, 1903	SUMED BY CITY—	
		38, \$112,000.	July 15, 1895

INTEREST on the railroad bonds is payable at City Treasurer's office; on school bonds by Board of Education; on water bonds at the office of the Mercantile Trust Co., New York.

TOTAL DEBT.—The city's total bonded debt in January, 1896, was \$855,000, including a water debt of \$405,000.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows, property being assessed at "about 70 per cent actual value."

Years.	Real.	Personal.	Total.	Rate of Tax per \$1,000.
1895.	\$9,416,280	\$2,039,093	\$11,455,283	\$28.38
1894.	9,323,085	3,283,196	12,606,281	24.12
1893.	9,262,055	1,635,908	10,897,963	27.48
1892.	8,383,731	1,711,063	10,094,794	—
1891.	9,041,206	1,805,526	10,846,732	—
1890.	8,963,530	2,057,810	11,021,340	25.30
1889.	9,043,055	1,944,625	10,987,680	—
1888.	8,086,200	1,766,117	9,852,317	—

POPULATION.—In 1890 population was 25,858; in 1880 it was 21,924 in 1870 it was 17,225. Estimated population in 1896 about 29,000.

Philadelphia, Pa.—Charles F. Warwick, Mayor. Below is a statement regarding the finances of the city of Philadelphia, which has been corrected to January 1, 1896, by means of a special report to the CHRONICLE from John W. Walton, City Comptroller.

Philadelphia, co-extensive with the county of the same name, is the third city of the United States, has an area of over 130 square miles, and includes a number of places which have almost the character of separate towns. The county is under city control and has no separate debt. In the following table the various issues of bonds under the general heads, Taxed City Loan and Untaxed City Loan, are given in the order of their dates of maturity.

Non-registered coupons overdue and yet outstanding.....14,000

PAR OF BONDS.—Bonds are in pieces of \$25, \$50, \$100 and \$1,000. INTEREST is payable by the Farmers' & Mechanics' National Bank Philadelphia, Pa.

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows Philadelphia's total municipal debt, and the sinking fund held by the city against the same, on the first of January of each of the last three years. [By a decision of the Supreme Court of Pennsylvania, filed May 31, 1894, it is held that, within the meaning of the word "Debt" in Section VIII, Article IX, of the Constitution of Pennsylvania, the real debt of the city is the authorized debt less the amount of the city certificates purchased and uncancelled in the sinking fund.]

	1896.	1895.	1894.
Bonded debt.....	\$52,900,245	\$53,669,945	\$52,758,845
Outstanding warrants.....	1,417,351	1,498,083	1,516,599
Total debt.....	\$54,317,596	\$55,168,028	\$54,275,444
Sinking funds.....	18,692,525	\$20,530,250	23,693,100
Net debt on January 1st..	\$35,625,071	\$34,637,778	\$30,582,344

The city held on January 1, 1896, in addition to the sinking fund given above assets amounting to \$8,145,859.

The sinking fund holds the following securities: City loan, at par \$18,692,525 and United States loan, at par, \$413,000. The amount of bonded debt redeemed by the Sinking Fund Commission during the year 1895 was \$4,015,000. Among the assets held by the city are 22,500 shares of Sunbury & Erie Railroad stock, par value \$100 per share, or 45,000 shares of Philadelphia & Erie Railroad stock, par value \$50 per share, market value \$26 per share.

CITY PROPERTY.—The real estate owned by the city is valued at \$50,840,294, an increase over the appraisal of Jan. 1, 1895, of \$2,235,000.

ASSESSED VALUATION, ETC.—The following shows the annual payments to the sinking fund, amount of bonded debt and outstanding warrants, assessed value of property, and the tax rate, for years indicated. Property in this city is assessed at about 4/5 of its actual value.

Years.	Paym'ts to Sink. Fund.	Total Municipal Debt Jan. 1.	Assessed real and Personal Valuat'n.	Tax Rate per \$1,000.
1896.	\$379,660	\$54,317,596	\$801,028,552	—

NEW LOANS.

\$350,000

5% Gold Bonds of the City of

SPOKANE, WASHINGTON.

Notice is hereby given that sealed bids will be received at the office of the City Comptroller, City of Spokane, up to 12 o'clock noon of the 2d day of March, 1896, for the sale of Spokane Water Works Bonds, in the sum of \$350,000, to mature as follows:

Jan. 1, 1907 .. \$30,000	Jan. 1, 1912 .. \$35,000
Jan. 1, 1908 .. 30,000	Jan. 1, 1913 .. 35,000
Jan. 1, 1909 .. 30,000	Jan. 1, 1914 .. 40,000
Jan. 1, 1910 .. 35,000	Jan. 1, 1915 .. 40,000
Jan. 1, 1911 .. 35,000	Jan. 1, 1916 .. 40,000

Denomination, \$1,000 each. Interest at the rate of 5 per cent per annum, payable semi-annually. Principal and interest payable out of the revenues of the water system at the office of the fiscal agent of the State of Washington in the City of New York, State of New York. Said bonds to be dated January 1, 1896, and not to be sold for a sum less than par and accrued interest. Bidders are required to name the highest price at which they will purchase said bonds or any series thereof.

All bids must be accompanied by a certified check, unconditional on its face, on some bank of Spokane, Washington, payable to the Treasurer of the City of Spokane, in the sum of at least 2 per cent of the amount of the bid.

Further information will be furnished on application. No bond shall be issued until sufficient bids have been accepted to cover the whole issue. The sinking fund commission reserves the right to accept or reject any or all bids or any part of any bid.

WILLIAM MORSE, City Clerk.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-six years of practical Life Insurance, which has taught it that the *line quo non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and Successful Agents, wishing to represent this Company, may communicate with the President, at the Home Office, 261 Broadway, New York.
